

Senreco
—the tooth paste that protects your teeth. Use it twice daily. See your dentist twice yearly and keep your teeth in perfect condition

Get a tube today, read the folder about the most general disease in the world. Start the Senreco treatment tonight. For sample send 4c. For 3c. in coin, to The Senreco Remedies Co., Cincinnati, Ohio.

DENTISTS FORMULA

WHAT TO DO FOR ITCHING SKIN

All the Burning, Smarting Torment of Eczema Quickly Banished With Simple Home Treatment

When the skin fairly burns and itches until you feel as if you would like to scratch till the blood comes, don't delay, don't continue to suffer, but get from your druggist at once some antiseptic Ucanol, apply as directed and enjoy the blessed relief it brings. The cooling, soothing, healing balsam-like ingredients of Ucanol sink right into the skin and almost instantly stop the angry itching, and soon clear away all rashes, pimples, sores or other skin eruptions. It speeds up nature to form new, healthy skin.

Antiseptic Ucanol is now being recommended by H. C. Kennedy in large, inexpensive family jars. It has not only been wonderfully efficient in almost every known form of skin disease but for piles. One delighted user has just written: "Ucanol is the best pile cure in the world. I tried everything recommended to me without relief till I got Ucanol."

For cuts, burns or bruises use Ucanol—it acts so quickly, so safely and so efficiently that many factories where accidents are of frequent occurrence always have a supply of Ucanol for first aid to the injured. No household should be without its package of Ucanol.—Advertisement.

Says Acid Stomachs Need Magnesia

Calls Bismarck Magnesia Safest, Quickest and Most Effective Food and Acid Stomach Corrective Yet Found

The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles is due to the fact that it quickly neutralizes the excessive acid in the stomach and thus stops food fermentation—the direct cause of nearly all stomach trouble. Of the many forms of magnesia such as liquids, oxides, citrates, carbonates, sulphates, etc., the most suitable and efficient for stomach purposes is bismarck, magnesia a teaspoonful of which taken in a little water after eating or whenever indigestion is felt will instantly neutralize or dissolve the excessive acid, stop fermentation and make painless and normal digestion easy. Be sure to insist therefore that your druggist supply you with magnesia in the bismarck form—either powder or tablets. Stomach sufferers who follow this plan and avoid the use of pepsin, charcoal, soda salts, drugs and medicines are astonished to find the stomach each once relieved of the irritating acid and gas, soon regains its normal tone, and can do its work once more without the doubtful aid of artificial digestives.—Advertisement.

STANDARDIZATION OF TRADE URGED

Wilson Recommends Co-operation Between Federal Commission and Businessmen

By Associated Press
Washington, D. C., May 17.—Co-operation between the federal trade commission and business firms and commercial organizations with the object of standardizing trade is recommended by President Wilson in a letter to Edward N. Hurley, vice-chairman of the commission, made public today at the White House. The President urges that the commission investigate industries and, if it finds any not "healthy," it suggest a "practical and helpful remedy."

The President wrote to Mr. Hurley to commend him for suggestions made in a recent speech at Boston in which Mr. Hurley told of efforts being made by the commission to assist the small manufacturer and merchant in bettering his condition by helping him improve his cost accounting and book-keeping methods.

This is a step in the right direction and one of the main fundamentals of any successful business," said the President. "Your suggestion that trade associations, associations of retail and wholesale merchants, commercial clubs, boards of trade, manufacturers' associations, credit associations and other similar organizations should be encouraged in every feasible way by the government seems to me a very wise one."

Too much emphasis cannot be placed on your suggestion that materials, methods and products in industry should be standardized upon the basis of specifications drawn up in friendly co-operation with engineering societies, industrial experts and trade associations. Further standardization in our industries will not only reduce the cost of production, but assure the producer better materials and more efficient workmanship, and to the consuming public the manifest benefit resulting from not having to pay for a wide and increasing variety of products and materials."

Plant Exploration
By Frederic J. Haskin
[Continued From Editorial Page]

carry these frozen parcels of scions and cuttings around with him sometimes for weeks before he reached a postoffice where he would forward them direct to the department at Washington, or to the consul-general at Shanghai.

Growing in the semi-arid sections of China, generally neglected and in soil of alkaline substance, Mr. Meyer found the jujube tree. He immediately bethought him of the semi-arid regions of the American southwest and packed some jujubes off to the department, which planted them in California and Texas. The jujube, in its wild state, grows in the waste places and sprays over ancient walls in northern China, producing a small, hard, sour fruit which is not fit for use. By crossing the various species, of which there are nearly four hundred, the Chinese farmers have produced a fruit that is sweet and luscious, highly prized by the mandarins for New Year's presents and by the keepers of hotels catering to the European trade. The jujube tree is now bearing heavy crops in Fresno, Chico, Idaho and Bard, California, and in Fort Worth, Austin and San Antonio, Tex.

Years ago, a quantity of jujubes were distributed throughout the southern Atlantic States, but being seedlings, these trees did not produce good fruit. The Chinese are now growing a large variety of persimmon, unknown in this country, for drying purposes. The fruit is picked just as it ripens and before it has had a chance to become mushy and soft. It is then peeled and slashed and strung up on lines to dry in the sun and wind. When it has been thus suspended for several weeks, it is distributed in piles and covered with matting, when the curing process begins forming an outer layer of grape-sugar. This persimmon is also flourishing wherever it has been planted in our southwest.

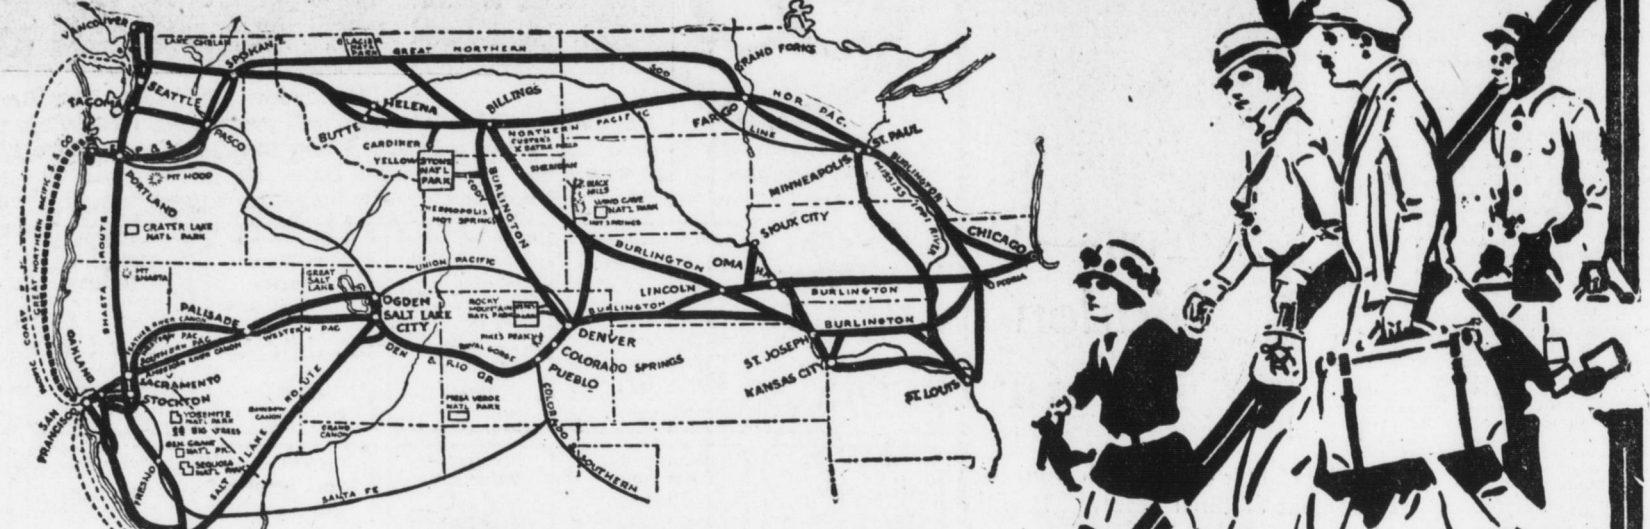

While traveling on foot through a deep ravine in northern China, Mr. Meyer came upon what is thought to be the original wild peach from which all the cultivated species of the world were grown. Upon questioning the Chinese gardeners, he found that they were using the roots of this plant for grafting purposes since it was resistant to alkali and cold. He succeeded in shipping seeds of this variety to the department that have since produced excellent results in California and Texas, and have even flourished beyond the northern peach belt of Iowa.

SOCIETY WOMAN LOSES AT RACES; SHOTS SELF

Special to the Telegraph
Baltimore, Md., May 17.—Miss Mary Mordecai, member of one of Maryland's most prominent families, and well known in society circles here shot herself through the head early this morning in her room in the Walbert apartments. She is at the Mercy Hospital in a critical condition. She had been worried of late, it is said, over losses in speculation in the stock market and wagers on the races.

SIX BICYCLES STOLEN
Bicycle thefts are keeping the sleuths of the local police department busy. Since last Thursday six bicycles were stolen. Two were stolen from in front of Cathedral Hall, in North street, yesterday.

-to any where WEST

Go Via the BURLINGTON

Take a Trip This Summer to Somewhere West!

The great Burlington railroad system covers the West. It's the logical road to any western point.

You can buy a single round trip ticket over the Burlington from Chicago or St. Louis at a very low price which will take you all over the West—to the famous cities, lakes and mountain resorts, directly and comfortably.

See America Western America Let your children see it. At least, visit one of the National Parks—the great scenic playgrounds provided by the government for your pleasure—Glacier Park—Yellowstone Park—Rocky Mountain—Estes Park.

And remember that throughout the West—in the cities or in the parks you may enjoy the luxury of palatial hotels or the quiet comfort of moderate price hostleries.

Practically every important scenic point in the entire West is reached by Burlington service—

- 1. Colorado
- 2. Rocky Mountain Nat'l-Estes Park
- 3. The Pike's Peak Region
- 4. Glacier National Park
- 5. Yellowstone National Park
- 6. Big Horn Mountains
- 7. Black Hills
- 8. Columbia River
- 9. Puget Sound Country
- 10. North Pacific Coast
- 11. Mt. Rainier National Park
- 12. Crater Lake National Park
- 13. Mesa Verde National Park
- 14. Great Salt Lake
- 15. Feather River Canyon
- 16. Rainbow Canyon
- 17. Yosemite National Park
- 18. California

—All in your own dear America and all reached by Burlington Service.

Now study the map. Note the many intermediate points you can get to when you travel on the Burlington—the best through the West.

A feature of Burlington "Service" is the helpful courtesy of its employes. Take a trip this summer to somewhere West. Let me help you decide. Let me assist you in arranging for tickets, sleeping car accommodations and baggage. I am here for that purpose and will be glad to give you, from the very start, an evidence of what is meant by "Burlington Service."

WM. AUSTIN, General Agent, Passenger Department
C. B. & Q. R. R. Co., 836 Chestnut St., Philadelphia, Pa.

Burlington Route

Take any road to Chicago or St. Louis. But from either of these two points insist that your ticket reads **Burlington**, for the Burlington's high class service—its comfortable through trains and model dining cars changes travel from an irksome task to a journey full of pleasure and interest.

Nominate Officers For Redeemer Bible Class

At the regular monthly meeting of the Men's Bible Class of the Lutheran Church of the Redeemer, corner Nineteenth and Kensington streets, officers for the incoming term were nominated as follows: For president, William Pensinger; vice-president, Jesse Wells, Jr.; secretary, Raymond Sheesley; assistant secretary, Joseph Scott and Earl Glace; treasurer, George Wilmer; reporter, J. D. Wells; pianist, Margaret Cover; assistant pianist, Esther Stouffer; chorister, H. M. Hartman; librarian, Monroe Witmer, Walter Lesher and Earl Yeager.

The election of officers will be held June 8, when the class will be held.

Order of Heptasophs of Harrisburg and vicinity met last evening in the quarters of Dauphin Conclave, No. 95, when addresses by well-known officers of the order were delivered.

—"Women of the Orient" was the subject of an interesting talk last evening by Mrs. Roy Davis, president of the Woman's Missionary Society of Market Square Presbyterian Church.

—Committees to complete plans for the proposed observance of "newsboys' day" were announced last evening at the meeting of the Newsboys' Association as follows: Room committee, David Asemowitz, Isadore Micholovitz and Eddie Fishman; on rules, the Rev. E. F. Robinson, Samuel Koplovitz and David Asemowitz. The Rev. Mr. Robinson entertained the newsboys with several readings.

—Indications point to a big attendance to-night at the "preparedness discussion" to be held in the Technical high school auditorium under the management of the Chamber of Commerce. Henry A. Wise, New York, chairman of the National Conference Committee on National Preparedness, will urge preparation for adequate defense, while the other side of the argument will be handled by Dr. Isaac Sharpless, Haverford College, peace advocate.

—Two pretty Central high school girls will compete in the Dickinson freshman class oratorical contest for the Miller prize of \$25. They are Misses Caroline Hatton and Mary Bell, class of 1915. The contest will be held the latter part of the month.

CITY BRIEFS

—At a meeting of the Harrisburg Academy of Medicine Friday evening an interesting paper on "What About Tuberculosis?" will be read by Dr. Clarence R. Phillips, chief of the State tuberculosis dispensary.

—All the conclaves of the Improved

SARAH BERNHARDT AGAIN CITIZEN OF FRANCE

Special to the Telegraph
Paris, May 17.—Sarah Bernhardt, who as a result of her marriage with Jacques Damala, a Greek member of her company in 1882, became a Greek subject, resumed her French nationality to-day by special decree of President Poincare.

GROCERS' LUNCHEON TO-NIGHT

Plans have been completed by the wholesale grocers of the city to hold a luncheon and smoker to-morrow evening in the Board of Trade building. The companies represented will include Evans-Burnett Company, Witman-Schwartz Company and Witman Brothers.

Bringing Up Father By McManus
