SPONSOR FOR NEW BOMB THROWER THAT MAY REVOLUTIONIZE WARFARE

MRS. KATHERINE M. STANTON New York, May 17.—A new centrifugal bomb thrower, with a range of 1,000 yards, is being sponsored by Mrs. Katherine M. Stanton, of Whitehouse, L. I. Mrs. Stanton, who has always had a hobby for firearms and is an expert on ordnance (the picture shows her beside a small brass cannon of her own design), was approached by the inventor of the new weapon and she immediately used her influence to bring the device to the attention of the War Department. She personally financed the building of the model which has been tested by ordnance officers.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulled coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

AVOID ALL MEAT IF KIDNEYS AND BLADDER BOTHER

Uric Acid in meat excites Kidneys and irritates the Bladder.

Take Salts at first sign of Bladder weakness or Kidney-Backache.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in voiding. Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and the urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink which quickly relieves bladder trouble.—Advertisement.

TO END CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Farnint (double strength), and add to it 1/2 cup of hot water and 1 ounce of granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy, and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.
