Common Sense Will Stop Horrible Rheumatism RIFLES HERE FOR

The famous Opie, a great English will not reach down to the throne room painter, was once asked what he mixed his paints with. "Brains," he replied.

Rheumatism cannot live long in a body that is cared for by a head full of brains. Brains or common sense is an avowed enemy to rheumatism. The poisons with which every rheumatic body is filled, arise in the kidneys, or stomach or blood. This poison goes into the blood. It is poison goes into the blood. It lodges in the muscles and joints. It gathers around nerves and presses upon them. It inflames the flesh. Pain comes and remains the flesh. Pain comes and remains that the cause of the trouble, the acids and poisons, are driven out of the blood.
