SOCIAL CENTERS CHARGES AGAINST PRESBYTERY HANG

son Stamm, president of the Harrisburg School Board, in a few appropriate remarks. From the pulpit of a village church in upper New York State, Mr. Ward first tried to work out a social and social contact. As a Presbyterian clergyman he opened his manse to the men of the whole community to be used as they thought fit. It became the Men's Club until the social side became too large for even its spacious rooms. His wish was then to close the church as a place of worship remodeling it into a community center building and conducting his members to worship with the Methodists. This was prevented by the rival congregation, but still the young idealist dreamed his dream that the "blood that left the common heart should leap to common pulse again."

The Great Common Bond
 "The need for a general community center," said Mr. Ward, "is but the human impulse for finding the great common bond. The churches talk brotherhood, but this work is acting it. It is in the one kind of club or gathering place where fellow knows he is always welcome and won't be asked out when his money is gone! It is no charity organization. We must get away from the idea of giving and so prone to feel that the so-called upper classes, you and I who have brains, culture and refinement, must stoop downward to the poorer ones and let them lift them up. The word is not 'up' but 'together.' The actual fact is that the poor are more social by nature and instinct than the rich who hedge about with their money."

The School Building
 In the old Colonial days the New England town hall was the general meeting place for talking over and threshing out every problem of the community. The school buildings should be used, in Mr. Ward's opinion, not as it is done in New York City where the idea was started nearly thirty years ago by a school board which was controlled entirely by the school board instead of the individual members in the school districts. Last year 500,000 were spent in building the new York schools and 40 buildings opened every night in the week. The people spend \$242,000 annually for community center work and yet miss the spirit of it. It does not get over into the hearts of the people as it should.

WATCH YOUR WATCH
 If you wish your watch to give good service, wind it regularly. Try to wind it about the same hour each morning or evening. If it becomes necessary to have it set, your watch will be better always to turn the hands forward. The same observations apply to clocks. If you are setting a clock that strikes, it is better to set the hands at the point where it should strike and wait until it has finished striking. Remember that most clocks will not keep time unless they are set perfectly level.—The American Boy.

How Work Was Started
 "Make every understand it is not in any way connected with school work but the school building forms a convenient central meeting place for discussion of all subjects and for social intercourse. When I began the work in Rochester I went to twelve men in the same neighborhood each with a different point of view and occupation. I talked it over with each one and got him to come. When we were organized a meeting for a certain date in the schoolhouse to arrange a community association. Every voter became a member who lived in the neighborhood."

Following the lecture, Mr. Stamm opened the meeting to general discussion. Mr. Ward answered at length all questions put to him. Dr. F. E. Downes, superintendent of the city schools, said a few words of appreciation and expressed the approval and interest of every member of the Harrisburg School Board in the question of community centers.

"But it requires intense study, capable handling and, above all, funds," said Dr. Downes. Mr. Stamm asked if \$10,000 were raised in Harrisburg just how it would be put to use in this work. Mr. Ward suggested \$5,000 to \$4,000 as a salary to a competent secretary, and \$3,000 to be put into the building where a capable man should be in charge. The remainder would go for janitor service, etc.

Let us hope that in the general awakening of our prosperous little city community centers will soon take their rightful place. President Woodrow Wilson showed his hearty approval of the institution by remarking recently: "What I like about this social center idea of yours, schoolhouses is that there is the place where the ordinary fellow is going to get his innings, going to ask his questions, going to express his opinions, going to convince those who cannot realize the vigor of America, that the vigor of America pulses in the blood of every true American, and that the only place he can find the true American is in this clearinghouse of absolutely democratic opinion."

LOCUST BLOSSOM FETE ON MONDAY

Pure Milk Society Will Benefit Largely by Garden Party and Amusements

The committees in charge of the Locust Blossom fete to be held next Monday at Cedar Cliff farm, the country place of Mrs. Marlin E. Olmsted, for the benefit of the Pure Milk Society, are sparing no pains to make the event a success. The admission tickets, costing \$1.50 for adults and 25 cents for children, entitle the holder to tea or lemonade, and sandwiches in the afternoon, and fruit punch and sandwiches in the evening. One admission is sufficient for the entire day's activities from 3 in the afternoon until 11 at night, if the patrons desire to return for the dance after a visit during the afternoon, which will be devoted to outtings and mild sports and games and amusements for children.

MERGER CLAUSE GOES BACK AGAIN
 [Continued From First Page.]
 company's overhead wires and poles from the city's streets in the preparation, according to C. L. Baer, general superintendent of the telephone company, the merger clause was left out of the ordinance, however, and Council failed to take final action. Since then the mistake has been corrected, it is understood, and the merger clause has been put back. Commissioner W. H. Lynch who introduced the measure at the company's request, said fellow councilmen and himself wish to look into the merits of the changes proposed, although he said he believed that Council will be ready to act on it next week.

PROFESSOR C. T. FERRY
 Mr. C. T. Ferry, Professor of Mathematics and Director of the Savoy Hotel, will open his lecture course on the latest up-to-date dances on Friday evening, May 20, at the Savoy Hotel. The lecture will be held in the fifth floor of the hotel and will be given by Professor Ferry. The latest Waltzes will be featured. Private lessons will be given on request. Pupils will be given consideration. As to terms, etc., address Professor C. T. Ferry, Savoy Hotel or Bell Phone 3816.
