Idend from this operation, the longest of its kind along the water front. The cost has been so reasonable, park department officials said to-day, that at least one more — probably the ramp at Peffer street — can be treated in the same way.

In the construction of the walk and the rip-rapping of the slope at the foot of Muench street an unfortunate error was made in the grade, the whole stone structure projecting considerably beyond the line of the slope.

Too much material was used in the filling and instead of a stone or conserved gutter five feet wide at the bottom of the slope, as in the plan approved by the State Water Suply Commission, the rip-rapping starts flush with the granolithic walk, proposed by the State Water Suply while with the granolithic walk, provided losses of one to two points, the with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, and the rip-rapping starts flush with the granolithic walk, provided losses of one to two points, short was a start of the provided losses of one to two points, and the rip-rapping was light to a negligible degree, but price movements were almost one provided losses of one to two points, short was a start of the provided losses of one to two points, and the rip-rapping was light to a negligible degree, but price movements were almost one provided losses of one to two points, an replied Dr. Karpas. He added that these were recognized as mental discusses.

"Did Waite know what he was doing?" asked Mr. Deuel.
"He did not."
"Waite listened with appearance of indifference when Dr. Karpas quoted him as admitting he intended to kill his wife, Mrs. Clara Peck Waite, and her parents from the time of his engagement in order to obtain their money. Warren Waite, of Grand Rapids, the elderly father of the murderer, listened with tears rolling down his cheeks to the long recital of his son's crime but an insane man would commit such at wanton series of wrong.

Always Been a Coward Dr. Karpas testified that in addition to Waite's admission that he was a hief, icheat and murderer, without love for any one, that he always had been a coward. Walte cared nothing about sex, he told Dr. Karpas testified that in addition to Waite's admission that he was a neoward. Walte cared nothing about sex, he told Dr. Karpas expressing an noyance at the newspaper interpretation of his studio companionship with of Mrs. Horton's picture be always be wade at the next session of Council by appropriating the balance of some \$2,100 from the sum proton was like a flower which must be watered, so he had youred his affections upon her."

Waite was an egomaniac, he lacked all moral sense, he was seifish and would do anything he thought would benefit him, Dr. Karpas asserted.

The speed with which the trial has proceeded makes it probable that the park walks are being speedly related that the park walks are being speedly related that the park walks are being speedly related to the park walks are being speedly related to the sum proceed with which the trial has proceeded makes it probable that the

wante was an egonalitate. I lacked all moral sense, he was selfish and would do anything he thought would benefit him, Dr. Karpas asserted.

The speed with which the trial has proceeded makes it probable that the case will go to the jury to-night a remarkable record for a murder trial of such importance. If this is not done, the case will be in the jury's hands by Monday afternoon at the latest.

Dr. Karpas was preceded on the witness stand by Dr. Menas S. Gregory, head of the psycolpathic ward of Bellevue Hospital, who was called by the defense to testify to having received Waite in the psycopathic ward while he was suffering from the effects of the drugs he took just before his arrest. Dr. Gregory is a prosecution's expert.

In addition to the allenists, Miss Catharine A. Peck, aunt of Mrs. Walte, and Abraham Bassford, Jr., testified.

AVIATOR ESCAPES THIRD TIME By Associated Press
Paris, May 27.—Eugene Gilbert, one of the best-known French aviators who was interned in Switzerland in August of last year on being compelled by lack of gasoline to land on Swiss soil after a raid on the Zeppelin establishment at Friedrichshaven, escaped for the third time Thursday.

Thousands of great red, white and prisk peonles as usual, will be culled from the city beds and carried to the post rooms of the Grand Army for the decoration of the soldiers' graves.
