## Rev. Cooke Reviews Work of Presbyterian Assembly

The Rev. William R. Cooke, who kept Harrisburgers informed of the activities of local people at the Presbyterian general assembly, which closed at Atlantic City last week, has prepared a general review of the eight days' session for the Harrisburg Telegraph. The Rev. Mr. Cooke says:

## Mother Gained 30 Pounds

## Father John's Medicine Gave Her New Health and Strength. Helped The Children.

Mrs. Ida M. Butter, of Waterville, Maine, says: "I was so run down I could hardly do my work in the house, until I began taking Father John's Medicine, which built me up in flesh and strength. I gained 30 pounds while taking it. I have used Father John's Medicine for my children with good success." (Signed) Mrs. Ida M. Butter, 87 King street, Waterville, Me.

## HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week. Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast. A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

# SENATOR MARTIN WHACKS PRIMARY

Does Not Like the Way the Law Is Operated in This State at All

Senator Franklin Martin's declaration against the present primary law at the meeting of the Cumberland county Republican committee at Carlisle Saturday, has attracted State attention because it is the first statement coming from a legislator since the primary regarding the law which seems to have fallen short in a good many points.

Senator Martin, who is a candidate for re-election announced his stand as favoring increased mothers' pension and the submission of local option and women suffrage questions to the vote of the people. He said as to the primary laws, "I believe they have some excellent features, but on the whole they are a failure, and I am in favor of repealing all of them and going back to some improved form of the old convention plan."

"I would suggest the repeal of all acts requiring voters to nomination papers. Under the present primary system the voters will not go to the polls for the reason that not one in ten can understand and vote intelligently without assistance. The present blanket ballot. They will not ask for help and cannot remember the many names that are on the ballot or to read in a poorly lighted booth the instructions in fine print. The result is they remain at home or away from the polls and the primary election becomes a minority choice and not a majority and is becoming less and less at every election."

## HEAT EXHAUSTION

Horford's Acid Phosphate Revives, refreshes, strengthens. Relieves depression, restores the nerve force. Buy a bottle.—Advertisement.

## JAMES J. HILL IS DEAD AT ST. PAUL

[Continued From First Page]

studying for the medical profession as he had intended and he secured employment in a country store. Early in 1856 he made a tour of the United States from Maine to Minnesota and decided to settle in St. Paul, Minn. Here he engaged as shipping clerk with the Duluth and St. Paul Packet Company, and took the opportunity to make a careful study of all subjects relating to river transportation, especially that of fuel. In 1865 he became the agent of the Northwestern Packet Company, and when this line merged with the Davidson line in 1867 he engaged in a general transportation and fuel business. In 1869 he formed the warehouse firm of Hill, Griggs & Co., and in 1870 the Red River Transportation Company. Mr. Hill was the first to take the route to St. Paul and he opened the first communication between St. Paul and Winnipeg, then Fort Garry, Manitoba, in 1872.

Establishes Coal Company In 1875, with E. N. Saunders, C. W. Griggs and William Rhodes, he established the Northwestern Fuel Company, but three years later sold all his interests in the fuel and steamboat companies, having acquired meanwhile the capital stock and defaulted bonds of the St. Paul and Pacific Railway, with Sir Donald S. Smith, George Stephen and Norman W. Kittson. This road consisted of eighty miles, from St. Paul to St. Cloud, 316 miles from St. Paul to Greenbush, and about 100 miles of track not connected with either of these lines, and besides being \$33,000,000 in debt it was utterly discredited on both continents. It was reorganized in 1879 as the Manitoba Railway Company, with Mr. Hill as its general manager. He became vice-president in 1882, and president in 1888. When the road was sold to the far-sighted judgment, he was the first to propose a railway from the Great Lakes to the Pacific Coast, despite the fact that that portion of the country was virtually unknown and that such a road would parallel two existing lines, the Northern Pacific, which had been constructed at enormous cost with the assistance of the Federal government, and with the Canadian Pacific, which had behind it the resources of the British empire, and to build which half a continent had been put in pawn.

# National Defense and International Peace

## Are You Ready to Play Your Part?

The power of a nation in time of need is the producing power of her industries. They are making a survey of YOUR COUNTRY'S Industrial Resources.

America must find out what this producing power is and then develop it. They are helping YOUR COUNTRY to FIND ITSELF—and You!

The capacity of every plant must be gauged. They are charting the channels of commerce. Sounding each source of supply.

The ability of every man must be known. So that, should the Day break when War must come—

For War is Mechanical. YOUR ARMIES in the field will be but the crest of a Wave of Industry as wide as the American Continent and as deep as the American Soul.

It is Electrical. That YOUR COUNTRY may know what the Engineers are doing, the Associated Advertising Clubs of the World have pledged their services to the President of the United States. And this advertisement, published free, is part of a nation-wide series to secure YOUR cooperation with the Engineers.

It is Chemical. It is Mining—Manufacturing—Transportation.

It is EVERY phase of Engineering, fused into a single industry—

"The Nation's Defense" Thirty thousand Engineers today are serving YOUR COUNTRY without pay.

## "What Can I Do?"

This is, doubtless, the question you are asking yourself. if so needed, to be a Soldier in Industry, behind the firing line, which is just as important as being a soldier on the firing line; if you are a business man, or a professional man, or whoever you are—help mobilize "GOOD WILL" behind this patriotic task of the Engineers, in behalf of National Defense and International Peace.

Here is the answer: If you are a manufacturer—co-operate fully with the Engineers, so they can do their job quickly and efficiently; if you are a working man—help your employer to help the Engineers and be prepared,

# Took Quaker Herb Extract AND FEW HOURS LATER EXPELS A TAPEWORM

Health Teacher has shown many testimonials from people who derived great results from the Quaker Remedies. You have undoubtedly read them and probably investigated and found them true in every particular. Mr. Walter Carberry reported that his severe case of rheumatism in his back and shoulders had disappeared after using Quaker Extract and Oil of Balm. Mrs. Wittekind reported seemingly miraculous results in a most severe case of stomach troubles from which she had suffered for years. She took the Quaker Remedies less than one month to obtain these wonderful results. James V. Levan cheerfully allowed it to be published that Quaker Herb Extract, Oil of Balm and Kidney Pills had cured him of Kidney and Bladder complaints and Lumbago.

Mrs. C. Cropper certified that her inflammation sciatic rheumatism has completely left her since she took the Quaker Remedies. Mrs. Matthew Mangold stated that she no longer has any symptoms of catarrh. Quaker Herb Extract done the work. Mrs. Andrew Shull, 2251 N. Sixth St. Her husband is very well known and is an engineer on a passenger train on the middle division. For years Mrs. Shull was afflicted with a tapeworm, which caused her to be subject to all kinds of stomach complaints. She tried many treatments, some severe, some mild, some expensive, some cheap, and while at times she succeeded in getting pieces of the worm it always thrived again, causing more trouble than ever before. Oh, how anxious she was to get rid of it. She realized that unless she expelled it serious consequences would surely result. But what should she do? What should she take? Where should she go for help? Was there really no cure for her? She did a wise thing, for which she will ever be thankful. She called at Keller's Drug Store and convinced the Health Teacher that she was afflicted with a tapeworm and he therefore recommended the Quaker Herb Treatment. She obtained it, took it according to directions the next day, after a few hours she expelled the monster complete. It can never bother her again; she is cured and Quaker cured her after everything else had failed. Mrs. Shull will be only too glad to acknowledge the marvelous powers of the Quaker Remedies. If you suffer with rheumatism, catarrh, indigestion, constipation or any stomach disorders, call to-day at Keller's Drug Store, 405 Market St., and obtain this wonderful Quaker Herb Extract, three bottles for \$2.50 or \$1.00 a bottle. Oil of Balm, 25 and 50 cents a bottle. Kidney Pills, 50 cents a box.

fact that that portion of the country was virtually unknown and that such a road would parallel two existing lines, the Northern Pacific, which had been constructed at enormous cost with the assistance of the Federal government, and with the Canadian Pacific, which had behind it the resources of the British empire, and to build which half a continent had been put in pawn.

## Built Great Northern

From 1880 to 1893 he built and equipped the present Great Northern system, in all some 6,000 miles of track, extending from Lake Superior to Puget Sound, with northern and southern branches and direct steamship connection with China and Japan. It was constructed entirely without state or government aid, land grant or subsidy, at a capitalization in stocks and bonds of about \$30,000,000 per mile, and at the rate of nearly a mile a day for every day of his control. The Great Northern system, as it is called, is supplemented by a line of passenger and freight steamships on the Great Lakes surpassing in capacity and speed any before built. While Mr. Hill built up for himself and other shareholders of the road a constantly accruing fortune, he also created for the settlers along his line \$1,000,000,000 worth of wealth in real property, and this achievement is without a parallel in the history of our railroads. The reduction in rates of transportation had given the shippers along the road practically \$67,000,000, this diminishing the company's revenues by that amount. Nevertheless, up to 1905 the company

had paid to stock and share holders about \$50,000,000, while employees had received for their share over \$100,000,000. Owing to its economy in operation, constantly increasing business and earning capacity, the Great Northern has made a steady decrease in freight rates.

## Contributed to Belgians

For several years James J. Hill had been in the habit of insisting both to his friends and to the public that he was not actively engaged in business. Just how active he was during the last two years of his life can be judged only by little evidences of his master hand in questions affecting the Great Northern Railroad and the First National Bank of St. Paul and by three outstanding accomplishments in which his will and genius asserted themselves. From a world viewpoint it would be hard to say whether his staunch support of the invasion of the Germans, or the part played in the negotiations for the \$500,000,000 loan to the allied governments is the more important. From the time the work of succoring the Belgians began Mr. Hill took a leading part in the movement. It will probably never be known how much money he sent to King Albert, an old personal friend, and how much he induced others to send.

## Contend That Tobacco Industry Is Taxed to Limit

Washington, May 29.—Demand for a "square deal" at the hands of the legislators for the tobacco industry was voiced by Jacob Wertheim of New York, president of the Tobacco Merchants' Association of the United States, in his first annual address at the opening session of the organization here today.

In this connection the speaker referred to proposed anti-tobacco legislation in the various states including restrictions against smoking, which, he said, if enacted, would result in unnecessary loss of business to the industry. Mr. Wertheim protested against the proposal to levy additional taxes of tobacco and contended that the industry already is taxed to the limit.

# You Must Purify Your Blood In The Spring

Are you simply dragging your way through life, suffering tortures from some blood malady that has stolen your health, robbed you of the ability to enjoy life's pleasures, made the future a hopeless uncertainty, and left you but a shadow of your former strong self? If so, let us warn you to look to your blood, and you will likely find the cause of your trouble. Poisoned blood can be blamed for more disease and suffering than any other thing, and there can be no health until the life fluid, that feeds and builds up every part of the body, is made pure and free from poison. Just now you need a reliable tonic. The aches and pains, the weakness, the lack of vitality, the absence of all desire to exert yourself, are your system's cry for relief from starved and poisoned blood. Answer that cry with S. S. S., the great blood remedy that drives out contagion and brings back the blood of health. Get S. S. S. from the druggist today. It will give relief. If medical advice is desired, write our Medical Department, Room 27, Swift Specific Company, Atlanta, Ga.
