lease of a quantity of copper and machinery consigned to the Carranza government but now detained in New York. Mr. Arredondo declared to-day that, lacking other instructions, this was the only question he had to take up with the State Department at this time.

Quiet at Tampico

Special Agent Rodgers at Mexico City telegraphed that the note should have reached Washington yesterday. He has been assured that it will not be made public until delivered to Secretary Lansing. Mr. Arredondo, however, reiterated that he had no official advice that a note was on its way.

Navy Department dispatches report quiet at Tampico. Financial conditions in Mexico City are reported to continue bad. Consular reports from other points said considerable friction was resulting from the Carranza government's efforts to maintain its new paper currency at prevailing rates.

State Department officials had before them to-day for inquiry a telegram from 84 American oil operators at Tampico protesting against decrees promulgated by the Carranza authorities, designed to be declared to render it impossible for Americans to conduct business in the country. The message, addressed to President Wilson, related how one of their number had been arrested and imprisoned for three hours because of the refusal to pay his employees wages fixed by the authorities in excess of terms previously agreed upon with the men. Protection from the United States government was asked by the complainants who announced that they would ignore the confiscatory orders.

This protest, together with other

regarding recent decrees by the Mexican authorities, probably will result in representations to the defacto government immediately after the issue over American troops is settled.

Gen. Pershing Will Consult With Gavia This Week

By Associated Press

Columbus, N. M., May 29.—No word has been received from General Gavia regarding the fixing of a date for the conference between the latter and General J. J. Pershing, announced to be held this week near Colonia Dublan. As General Pershing is understood to have selected a spot near Colonia Dublan for the meeting, the time, it is said, has been left to the convenience of the Mexican leader.

It is believed that General Gavia is in communication with General Carranza, receiving instructions as to the proposition to be laid before General Pershing, which will have to do more or less with the present disposition of American troops in Chihuahua. It is expected General Gavia will remind General Pershing that the further presence of American troops in Mexico, now that one of the chief bandit leaders, Cervantes, is dead and his forces scattered, is unnecessary and that until the troops are withdrawn, demonstrations against the American troops by the civilian population are inevitable.

According to information received here to-day several bandit bands are operating south of the American lines in territory recently evacuated by General Pershing's columns.

Guns and Powder of Villa Found in Cave

Field Headquarters, Near Namiquipa, Mexico, May 28, via Wireless to Columbus, N. M., May 29.—Ten machine guns, three hundred and eighty rifles and a quantity of ammunition discovered yesterday in a Villa cave near here was brought to field headquarters to-day. The arms were found in a cave in Ojo Canyon, to reach which the guides climbed a tortuous mountain trail afoot.

Numerous theories have been advanced as to these but the authorities cling to the belief that it contained a greater quantity of munitions which Villa was reported to have hidden in the Bachinaba district before the raid upon Columbus, N. M. American army intelligence officers are centering their efforts on seeking further hiding places of weapons and ammunition, realizing that the cleaning of Northern Chihuahua of such caches is vital should Villa or any of his adherents reorganize and attempt to operate in this region.

No Extradition Move For Morgan Thieves

No record of any extradition papers for the removal to New York of the boys who stole the Morgan firm payroll and who were arrested in Philadelphia, is to be found at the State Capitol and officials in charge of requisition matters declared to-day that they knew of none. The boys were arrested in Philadelphia last week and according to reports received here were taken to New York.

If it is proved that the boys were taken from Philadelphia under arrest the detectives who did it are liable to imprisonment for a year under the act of May 24, 1878, P. L. 137. This act was passed to prevent removal of any person from this State to another State or nation without extradition papers and "temporary residents" are specified as coming under its protection. Violation of the act by any person is made a misdemeanor.
