RAILROAD NEWS FREIGHT IS SLOW; CREWS CUT DOWN

No Slow Movement Over Sunday; Engineers Return to Firemen Duties

Freight congestions on the main line of the Pennsylvania Railroad are now a matter of history. All trains are moving with more regularity, and few sidings are holding stored freight. An evidence that freight business is falling off, is shown in the transfer of 19 slow freight movements on the middle division, five at Harrisburg and five at Altoona, to the extra list. This change is in effect to-day. The engineers will go back to passenger firemen, and the other members of the crew will be given a chance on a new pool to be arranged in the near future. There was no slow freight movement between 6 o'clock Saturday evening until midnight last night. Within the past 10 days between 1,500 and 2,000 loaded cars, stored on sidings between Philadelphia and Pittsburgh were moved.

AMERICA'S PROUDEST TROPHIES

The electrification of 440 miles of main line of the Chicago, Milwaukee & St. Paul Railway between Harlowton, Mont., and Avery, Idaho, across the Belt, Rocky and Bitter Root Mountains, which form the Great Continental Divide, and the digging of the Panama Canal, stand linked as the greatest engineering achievements of this generation.

The Canal ushers in a new era of ocean travel. "St. Paul" electrification heralds a new era in transcontinental railroading—mastering forever the stupendous obstacles of the mountains—carrying traffic over the massive barriers with comparative ease and with pronounced saving in cost—decidedly improving train operation—practically eliminating all trouble from cold and snow—making mountain travel clean and mountain vistas clear.

CHICAGO Milwaukee & St. Paul RAILWAY

The accomplishment of the first extensive main line electrification in the world is but another item in the long list of achievements of "The St. Paul Road" in improving railroad transportation. When arranging your next trip to the Pacific Northwest consider well the many travel advantages individual to this railway.

GRAVE TROUBLE IN ATHENS Following Bulgar Invasion

Paris, May 29. — A news dispatch from Athens says that grave trouble has broken out there following the news of the invasion of Macedonia by the Bulgarians. Bulgarian troops crossed the Greek frontier on May 26 and occupied the Greek forts of Rupel, Dragotin and Spatovo. The Greek troops which had garrisoned these forts withdrew on the advance of the Bulgarians who claimed permission from the Athens government for their act. The Bulgarians were said to be led by German officers who explained to the commander of the Greek forts that the center powers were merely being accorded the same privilege that had been given the allies in permitting them to occupy Saloniki.

FIGHT DESPERATELY TO HOLD AUSTRIANS

Paris, May 29. — It was reported from Athens yesterday that feeling was running very high in the Greek capital over the Bulgarian invasion. The "Herald," the organ of M. Venizelos, appeared yesterday with a black border and contained a fiery article from the pen of the former premier.

LYKENS "BLACK BOOK" IN COURT

Dauphin Judges Hear Argument on Sewer Association Injunction Action

Argument was heard this morning by the Dauphin County Court on the injunction proceeding asked by the Lykens Sewer Association to restrain Mrs. Mary I. Snyder, Lykens, from tapping into a sewer under permission given by the borough authorities. The question dates back several years. At that time the Lykens Sewer Association was formed for the purpose of constructing private sewers. Necessary permission was given by councilmanic ordinance. In a clause of the ordinance council reserved the right to say whether or not the cost of sewers should be divided among the other citizens who had constructed these drains. The ordinance was included in the list of councilmanic measures incorporated and printed in the borough or "black book." Later a note in red ink was written upon the margin of this book which stated that this clause had been stricken out. The councilmanic records, however, failed to show by what authority such action was taken. Consequently the "black book" was the chief exhibit throughout the hearings.

Old Photograph Showing Lincoln's Body Lying in State in Strouse Windows

An old photograph that has attracted wide attention is in the Memorial Day exhibit, shown in the store windows of the new store of Wm. Strouse & Company. The photograph was taken in the old State capitol and shows the body of Abraham Lincoln lying in state.

GRIP AND NEURASTHENIA

There is a form of neurasthenia that follows the grip. Doctors call it "post-grippal" neurasthenia. One of the foremost medical authorities of New York City in a lecture in the international clinics, said: "Broadly speaking, every victim of the grip will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic." Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of the grip. The rich, red blood expels the lingering germs from the system and transforms dependent grip victims into cheerful, healthy, happy men and women. If you have had the grip get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once. On request we will send you a free pamphlet, "Building Up the Blood," which contains a chapter on the grip. Address the Dr. Williams Medicine Co., Schenectady, N. Y.
