4 KILLED WATCHING PARADE

Dallas, Texas, May 31.—Four persons were killed and eighteen injured late yesterday afternoon when the wooden awning over the sidewalk of a building on Main street collapsed. The killed and injured were watching a preparedness parade.

A New York business man said to me recently: "Do you know the Ledger is being read by all Wall Street?" In answer to my "Why" he said: "Because of that daily letter signed C. B. E. It's the best business news letter that ever came out of Chicago."

Clinton B. Evans

for many years Editor of "The Economist" of Chicago, is the one man in the Central West who has the personal acquaintance of all the West's big business men. His daily letter in the Public Ledger gives you the news of business in all lines and the opinion of, and interviews with, all the leaders.

Every intelligent Pennsylvania business man wants to keep posted on all the news of his business in all parts of the country.

If you would read the Public Ledger for six months, the probability is that you would never afterward be without it. Will you try it for six months, and find out if what I claim for it is true? If it is, you certainly need it. If it isn't, drop it! But read it for six months, long enough to be fair in your estimate, and break that fixed habit of being satisfied with what you have, without further investigation.

Chain Tread 'CHAIN' TIRES

Experience, the Teacher of Tire Lessons

The experience of your last week-end holiday trip has told you something about the tires you use—

—That they are, or they are not, the particular tires suited to your particular car.

Experience taught the United States Tire Company that all tires are not suited to all cars.

That is why the United States Tire Company makes five different tires—a tire to meet every need of price and use—the only complete line offered by any tire manufacturer.

One of the five is made for your car—will give you the lowest cost per mile.

"Cannon Ball" Baker's transcontinental world's record car was equipped with United States "Balanced" Tires. Baker says: "No other tires would have stood the test."

Ask the nearest United States Tire Dealer for your copy of the booklet, "Judging Tires," which tells how to find the particular tire to suit your needs.
