hows no signs of slackening in vio-ence, but the latest official reports, n contrast with most of those issued luring the last few days, record no wrther advances for the Germans. [Continued on Page 5] Mrs. Cowles Heads Women; The center of the bitterest fighting has shifted somewhat the southwest of the front between Cumieres and Dead Man Hill, west of the Meuse, where the Germans have scored most of their recent gains. Dead Man Hill, or the ground in its immediate vi-cinity, has been the scene of the last infantry engagements. The Germans attacked the French positions here last night, but were completely re-pulsed, according 'o this afternoon's bulletin from Paris, the German de-feat following a success for the French achieved yesterday, when they captured from the Germans a forti-fied position southwest of the hill. The first ten honor men in the Senior class of the Technical High School were announced this morning by Dr. C. B. Fager, principal of the school as follows: Russel Lowry, valedictorian; Charles S. Gerberich, salutatorian; Paul Strickler, Harry Llódick, Karl Lisse, Herman Marks, Robert Fleck, Russel Matthew, Philip Beck and George Landis.

Struggie Growing Intense Unofficial reports from Paris point to the growing intensity of the des-perate struggie at Verun. They de-clare, however, that despite the tre-mendous efforts of the Germans the. French first line west of the Meuse bs still unbroken and that the Germans must score further advances here be-fore they can force the main issue by carrying the battle to the opposite bank of the Meuse, where the Bras-Douamont-Vaux line continues to bar a direct advance upon the fortress. Current bulletins on the campaign in the southern Tyrol record con-tinued gains for the Austrans, who are battering at the line southeast of overtero, running through the regions of Schio, Arsiero and Aslago. The Italians admit withdrawal along some sectors of this front, but as yet there has been no breach in the main line of their defense which bars the way to the Venetian plain.

WEEK OF JULY 10

Last Teuton Drive Greatest of Entire Verdun Operations

E.

By Associated Press

By Associated Press Paris, June 1. — More complete accounts reaching here from Verdun show that the battle which raged from May 27 to May 30 and which ended according to a statement of the French War Office in a costly check for the Germans, was the greatest effort made by the Teutonic forces in the whole Verdun operations. More and heavier guns and denser masses of troops were assembled along the three miles of the French front from Hill 304 to the Meuse than in any previous at-tack.

Germans Thrown Into Verdun

Paris, June 1. — Verdun is *more than ever the central point of the whole war and critics here are confi-dent that the enemy is making a su-preme effort to win a quick success. The fighting increases in violence with each fresh onslaught attack follows attack with only sufficient pause for the preparatory bombardment and with unexampled fury. The enemy is now announced to have thrown in no less than eight divisions from other fronts during the last twelve days. The three battles which were fought on April 9, May 3 to May 8, May 18 to May 30 took place on the left bank of the Meuse. The tide has ebbed and flowed over a fixed line formed by the
