The Rev. O. M. Kraybill, of Middletown, principal speaker last evening, spoke of the method of making appropriations to foreign missions, which received less than \$12,000,000 each year for the entire world. Altoona was selected as the place for the next annual convention in May, 1917, and it was decided that the annual State convention of the Eldership, would be held at Worm-leysburg in October.

BATTLE SHOWS NO SIGNS OF SLACKENING

ry the battle to the right bank of the river and determine the main issue.

The objective is so remote that in the opinion of military observers it is altogether beyond the reach of the enemy. The Germans, it is pointed out, have stripped the Russian and British fronts, the latter so dangerous a proceeding that the German general staff hesitated a long time before making their decision and the present situation cannot be continued without serious risk.

The crown prince is now in a position to obtain in the capital and larger cities of the German Empire. "Meat lines" have grown as long as the winter and in the future forming them must some times wait for hours before they can procure the quota al-lotted.

Responsible for this condition are the heavy demands made upon the sup-ply by the army, an almost total cessation of imports, and the Govern-ment's new policy of discouraging the sale of meat to animals before ven-tening, has given them their maximum butcher weight. Cattle owners have shown a tendency to keep stock from the market because the maximum price arrangement has left them little profit.

Meat Lines Now as Long as Bread Lines in Germany

Berlin, June 1.—For the first time since the outbreak of the war, meat is sold to obtain in the capital and larger cities of the German Empire. "Meat lines" have grown as long as the winter and in the future forming them must some times wait for hours before they can procure the quota al-lotted.

Responsible for this condition are the heavy demands made upon the sup-ply by the army, an almost total cessation of imports, and the Govern-ment's new policy of discouraging the sale of meat to animals before ven-tening, has given them their maximum butcher weight. Cattle owners have shown a tendency to keep stock from the market because the maximum price arrangement has left them little profit.

Guiding Spirit Should Be America First—Perkins

Chicago, June 1.—George W. Per-kins, chairman of the executive com-mittee of the Progressive party, ar-rived here to-day and will remain until after the Progressive national convention June 7.

"There is a lot of bitter feeling be-fore" worked up in the various camps over the different candidates for President," he said. "It is very un-fortunate. This is prominently a time when ever there are these conventions should be an American first. This is the spirit which should guide every delegate."

"I observe that Carranza in his note sent to Woodrow Wilson yesterday accused the Wilson administration of duplicity and deception.

"This is the first time that any foreign power has dared to accuse the United States of treachery.

"Our prime object here should be to put a stop to this sort of thing and immediately restore the good name of this country in the eyes of the world."

DESERTION IS BAR TO COMPENSATION

Woman Living Apart From Her Husband Not Under State Law

The State Workmen's Compensa-tion Board is an opinion rendered here to-day rules that a woman separated from her husband can not claim compensation for his death or injury. The decision was rendered in the case of Helen Bryant Boone, of Milford, Del., against the Pennsyl-vania Railroad, the husband having been killed.

The referee found that the husband had been supporting the wife and child from November, 1913, until May 1914. He was killed January, 1916. The referee made an award to the widow and child. The board finds that the widow voluntarily withdrew from her husband some time before his death and reverses the referee in his award to the widow, saying: "She asserted and maintained an independ-ent status quite incompatible with that dependency contemplated by our act. She renounced her dependency previous to her husband's death. We hold that under our act the widow's dependency is one of fact and not of law."

The award to the minor child was modified.

SAYS WILSON IS REPELLANT TO GERMANY AS MEDIATOR
By Associated Press
Berlin, May 31 (Via London, June 1). — Prof. Hans Delbrueck, of the University of Berlin, has written an article in regard to American media-tion in the war in which he says there is something repellant to Germany in the idea of accepting President Wil-son as mediator. "It is obvious," he says, that the sympathies of the President are with the entente powers, which might be regarded as disqual-ifying him so far as the central pow-ers are concerned. He continues: "Moreover President Wilson by using in his speeches expressions which are insulting, has created an atmosphere between us which renders all official approach no longer possible."

Pittsburgh, Pa., June 1.—Judge John G. Shafer and the jury saw a moving picture exhibition in common pleas court here yesterday as a part of the defense of a telephone company which was sued for heavy damages by Mrs. Freda Garletz who claimed both hands and her back had been perma-nently injured after picking up a live wire of the telephone company.

After she had filed suit against the company a detective agency hired a house in the rear of her home and installed a moving picture camera through the back window. The film showed Mrs. Garletz feeding her chickens, throw-ing corn over a high fence and lifting heavy boards and piling them up. Other views showing feats requiring considerable strength were exhibited.

Even a King can't dictate what you should like or not like

If it so happened that Fatimas were originally "Made and blended for the King of Whatis"—would that fact prove that you were going to like Fatimas best? It would not.

A man's taste is his own. A cigarette that might delight some old potentate's palate would not necessarily please you.

That's why we leave Fatimas up to your taste.

But there is something more than good taste that is mighty important to you.

No matter how good-tasting a cigarette may be—it can only be the SENSIBLE cigarette for you if it is comfortable, too.

Its pure tobacco must be cool and comfortable to your throat at all times. And it must leave you feeling fine and fit at the end of a hard-smoking day.

Will it do all that?

Then, it is the sensible cigarette for YOU.

There are thousands and thousands of men who believe that Fatima is the most sensible cigarette there is.

Try them yourself. You may discover—as these thousands of other men have—that Fatimas have just the cool, mellow taste that you've been longing for in a cigarette.

You may find that Fatimas have the kind of mildness which allows you to smoke more of them than you might of other cigarettes.

You may find that Fatimas offer you a little more satisfaction in every puff than you ever before found in any other cigarette.

The Factory Behind the Food

More than forty different kinds of corn flakes were prepared experimentally before New Post Toasties were finally developed to perfection. As a distinguishing feature, note the tiny bubbles on each flake—raised by the quick, intense heat of a new, patented process of manufacture.

New Post Toasties are the first corn flakes with a self-developed flavour—the full, true flavour of choice white Indian Corn—unlike common "corn flakes" that depend largely on cream and sugar for their palatability.

Try a handful dry—this simple test will demonstrate the delicious new flavour. But the flakes are usually served with cream or rich milk.

New Post Toasties do not "chaff" or crumble in the package, and they "stand up" when cream or milk is added. They're untouched by human hands and put up in moisture-proof packages to preserve their oven freshness until served.
