Thin Men and Women

Here's a Safe and Easy Way by Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.
What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, flabby tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol. The famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point. Geo. A. Gorras and other good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each large package. It is inexpensive, easy to take and highly efficient.
NOTE.—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous prostration, etc., have been reported, care should be taken about using it unless a gain of weight is desired.—Advertisement.

Veterans Parade Before Big Department Encampment Opens This Morning

The picture at the top shows the comrades enroute to convention hall. They were greeted with cheers along the route. The middle picture shows the officers of the ladies of the G. A. R. They are, reading from left to right, Mrs. Mabel E. Nissen, Philadelphia, treasurer; Mrs. Mary A. Howard, Philadelphia, secretary; Mrs. Bert F. Make Weaning Time Easy For You and the Baby
You have brought your baby safe and serene to the time when he must be weaned. And as he dabs about with his little fists, you think sadly of the hard and weary days before you.
But weaning time can be so easy for you and easy for the baby. It need not even ruffle the rose leaf color in his cheeks.
Just change him from your own milk gradually, one feeding at a time, to something so like your breast milk that his tiny body will feel no change or shock. Your baby will slip easily into the use of Nestle's Food

More Murads are smoked than any other Turkish cigarette costing the consumer 15 Cents or more.
Just think of that!
There are many brands of high-grade Turkish cigarettes, but "That Goodness" that Smokers Demand is concentrated in Murad.
Murad's success makes competitors unhappy. Murad continues to break every record.

to get the New Hampshire under way immediately in the role of scout. Captain Chandler replied that the New Hampshire could not get under way until 10 o'clock the next morning, to which the Secretary replied that 10 o'clock would be satisfactory and for the ship to report her position every hour thereafter to the government stations at Arlington. Such a report was made by telephone for the first time in the history of the world.

Reasons For Buying Coal Now
1—You save 30c on each 2,000 lbs.
The money spent for coal this month is equal to an investment earning 7 per cent. An investment that is absolutely safe.
2—You get better coal.
The coal is not rushed through the breakers in a desperate effort to fill all orders, as is the case in winter.
3—Less slate and other impurities.
The busier the mine operators, the faster the coal goes past the breaker boys, who pick out the slate. The result, lots of slate gets past the boys—you get the slate.
4—Cleaner coal.
Coal shipped in winter is often frozen solid in the cars. Frequently it is necessary to use picks and bars to remove it. Being frozen and wet it is nearly impossible to make clean.
You should place your order at once and get the advantage of summer shipments.
