DISCARDED WONDERS OF WHEAT EXPLAINED BY FOOD EXPERT

CHAPTER 69
With a Simple Outfit Any School Teacher Can Initiate Her Pupils into the Discarded Wonders of the Grain Known as Wheat—The Hair of Women Will be Less Thin and Lusterless and the Bald-Headed Man Will Have More Hair to Engage His Attention. When Schoolchildren, Destined to Be Our Future Men and Women, are Permitted to See and Understand the Nature of These Neglected Wonders...

Professor Harry Snyder speak out in meeting as Professor Scott Nearing has spoken, the money invested in so-called patent flour mills would have as little use for him as the University of Pennsylvania has had for the now internationally famous victim of starch-chamber proceedings in the person of Scott Nearing.

to her, and the bald-headed man who wishes he had some hair to value, even thin and lusterless hair, will look with profound interest upon the discarded silicon which has just been measured, and the anemic creature who seeks in vain for solace in beef-iron-and-wine will wish that the miller would not throw all this elemental food to the dogs.

land, Wormleysburg, West Fairview, Enola, Summerdale, Overview, Washington Heights, Camp Hill, Shiremans-town, Mechanicsburg and Marysville. The cars of the Valley Railways are all supplied with current from this company. Three-fourths of the industrial plants, large and small are all motor driven.

a confused mass of vines and hard to gather the pods. The best support for the climbing limas is the chicken wire netting. I use the five-foot wide sort. The cheapest is that with large meshes. Stout stakes are set at ends and along the rows to attach the wire to and the beans are planted in a continuous row a foot apart. This support is far cheaper than poles, for the wire lasts indefinitely, it rolled up and stored in winter, and the vines take to it at once and the gathering of the crop is easy.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood—How to tell. New York, N. Y.—In a recent discourse Dr. E. Sauer, a well-known specialist, who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable, some skinny and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up the momentary vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-

grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were all but dead, and even triple their strength and endurance and expelled liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and doctoring for months without obtaining any benefit. You can talk as you wish by new remedies, but when you come to hard facts there is nothing like iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve blood builder in the world. The only trouble was that the old forms of iron, organic iron like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the new form of organic iron all this has been overcome. Nuxated Iron you example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

Electric Power Supplied By the United Electric Co.

The New Brickler Bakery is one of the many industries of the West Shore operated by the current supplied by The United Electric Company, of Lemoyne, White Hill, New Cumberland.

Hives & Rashes Quickly Soothed and Healed by Sykes Comfort Powder

Under a powerful glass the bran is found to consist of rough, canvas-like, brownish particles, with a very remarkable suggestion of wool and warp. The germ, difficult to distinguish from bran with the naked eye, will be found to consist of rich, oily, cream-colored particles. A chemical analysis of this bran shows that it contains the mineral salts, colloids and vitamins which we have been discussing. Both bran and germ are rich in silicon, sulphur, nitrogen, iron, iodine, potassium, manganese, phosphorus, nucleo proteins, or phosphorized albumen, lecithin, or phosphorized fats, and the simple phytin compounds and phosphates without which, as has been conclusively proved in the St. Petersburg experiment, no animal can be properly nourished.

Support for Lima Beans

Lima beans need heavier manuring than any other kind of beans and the tall-growing ones, must have support, though in the dry climate of California they let them tumble on the ground. I have seen one crop grown in Maryland in this way, writes W. A. Morris in Farm and Home, but it was

Your Health

is a delicate thing to experiment with. Better not take chances with something that has not proven its worth. If it is a blood trouble of any kind that is worrying you, then it is S. S. S. you need to cleanse and purify your blood. You can't go wrong when you turn to S. S. S., because it is purely vegetable and has curative qualities possessed by no other blood remedy. One bottle, has in many cases been worth its weight in Gold to the user. Get S. S. S. from any druggist and start on the road to health today.

Pretty Teeth Add to the Natural Beauty of All Faces

If your teeth are in want of any attention, call and have them examined, which is FREE OF CHARGE.
