PUBLIC SERVICE NOT EXPENSIVE

Chairman Ainey Calls Attention to What Commission Has Done

"The records of the Public Service Commission show that during the fiscal year ending May 31, 1916, there was a material increase in the volume of business transacted as compared with the previous year, and in some respects this increase soared as high as 30 per cent," says Chairman Wm. D. B. Ainey, who also says it is a matter of gratification to him that the results were accomplished with practically no increase in the office force and with an appropriation smaller than that provided by any other State that may properly be compared to Pennsylvania. New York, it is pointed out, spends \$1,500,000 annually in commission work while this State has but \$270,000 for the same period to meet the many and varied demands for public service supervision.

Chairman Ainey said that during the year ending June 1, 1915, 175 formal complaints and four of an informal character were filed, but during the following year there were 384 formal complaints and 222 of an informal nature. The municipal contract applications increased approximately 400 and the applications for certificates of public convenience went up from 305 to 806.

In 1915 the Bureau of Accounts handled 3,503 matter, but during the year just ended it was called upon to dispose of 7,204 questions in the line of accounting. The Bureau of Accidents, to which is reported all accidents that occur on steam railroads, street railways and other common carriers, received approximately 15,000 reports; and they were classified so that the time, place and character of the accident may easily be referred to. A record has been made of the number of grade crossings of every steam railroad, in the State; the number protected and unprotected; the hours during which the crossings are protected and the character of the protection installed. Accidents at grade crossings are reported on a special form and the reports show whether the accident occurred on a main line; a public or private siding; a township road, street or private road; and the number of trains that pass over the crossing daily and nightly.

In addition to the vast amount of business that is formally presented to it the commission is called upon daily in reply to correspondents from all parts of the State who seek to know whether this person or that corporation is not violating some statute or another and pains are invariably taken to furnish the information.

GOVERNOR WILL RETURN TONIGHT

Capitol Hill Nervous Over the Prospects of Some Changes in Offices

Capitol Hill is nervously awaiting the return of Governor Brumbaugh from Philadelphia, whither he went direct from Chicago last night. The Governor is due late this afternoon or this evening and it is expected that some changes in the State governmental forces will be inaugurated pretty promptly.

Men close to the Governor, who was in consultation with Attorney General Brown, Congressman Vane and others in Philadelphia last night and to-day, say that there will not be any wholesale sweep of men from districts whose delegates did not line up for the Governor for President on the first ballot, and that some examples will be made of men who the victors will be no one knows. Probably nothing will be done for weeks and the changes will be gradual.

What is most important will be the filling of the big places which are vacant. The Highway Commissioner, Insurance Commissioner, Fire Marshal, Insurance Fund Management and other places are to be taken up soon. It has been years since the Governor has had so many big places to fill at one time and the expected advancement of John Monaghan, public service commissioner, to the vacancy on the Philadelphia bench, will make another.

Patton is Boomed
Charles E. Patton, Secretary of Agriculture, is being mentioned for Highway Commissioner and his friends say he is the logical man for the place as he is familiar with the State government and has been successful in inaugurating the changes in the Department of Agriculture. It is pointed out that as the farmers were opposed to the department of roads two years ago and a complete change in sentiment has taken place Mr. Patton will fill the bill. In addition he has had experience in road construction and a business training. The Governor is a warm personal friend of the secretary and spoke highly at Chicago last week of the work the Clearfield man has done in his department.

Frank S. Black, of Somerset, one of the State Agricultural Commission and J. Denny O'Neil, the Allegheny county leader who is a close friend of the Governor are also mentioned. The Governor has been keeping his own counsel about this place as well as the others. Some of the appointments may come this week. There will also be some changes in boards of State institutions, it is believed, before many days.

Powell Says "Not Yet"
While the speculation about the Governor cutting off heads has been going the rounds of the Hill there have been rumors that Auditor General Powell would make some further changes.

When Mr. Powell was asked about the matter this afternoon he said "Not yet."

"What does that mean? Are you sharpening the ax?" was asked of him.

"It means nothing but what I said. There is a lot of talk, but I have nothing else to say."

The Governor will remain here most of the week and will then plan his summer vacation. It is generally believed that the Governor and Mrs. Brumbaugh will go to the Poconos for a short time and that Dr. Brumbaugh will also spend a while in Maine, as has been his custom.

Big News Boiled Briefly For Busy Folk

Runaway Arrested.—Bernard Benvidex, aged 19, a student of the Carlisle Indian school, can away a short time ago, and was arrested yesterday by Officer Gardner, when he sought shelter from the storm under an awning adjoining the police station. He was turned over to the Carlisle authorities to-day.

Lightning Hits Shop.—During the storm yesterday afternoon lightning struck the Pennsylvania railroad wheel shop at Lucknow, but the blaze which followed caused only slight damage. Later the lightning struck an auxiliary and sent in an alarm from Box 7, Thirtieth and Market streets.

Three Attack Constable.—Constable Bertram A. Wells, special officer at the Duncannon Iron Works, was attacked by two colored men and a woman late Saturday night, when he at-

Butter That Tastes Like Cheese

—or to have your whole lunch taste of banana, are vital problems that confront the housewife or cook. —unpleasant to the participants, you'll agree. Yet all those things and many other inconveniences can be avoided in the

Notaseme Stone-lined Refrigerators

Constructed along scientific lines to prevent "tainting." Germproof in its solid stone lining; no seams; no corners; no crevices.

Investigate Our Club Plan Which Sends A Notaseme to Your Home For \$1.00

It is interesting to note that in the big storage house fire, of last year, Notaseme refrigerators withstood the greatest test ever known to a refrigerator. Their six distinct walls were virtually heat-proof, as their interiors remained intact. Little chance of ordinary kitchen heat penetrating.—Fifth Floor.

TICKETS FOR RINGLING BROS. CIRCUS

Patrons to the circus on Wednesday may purchase tickets at this store which is the authorized downtown distributor. Same prices as those charged on the grounds; and a full selection of seats. Buy here and "avoid the rush."

Examine Your TEETH Tonight

—after you clean them. You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIFRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit. Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for liberal-sized trial package.
