# PRINCETON WINS IN YALE SERIES

Pitcher Link Big Hero in Final Battle; Squeeze Play Brings Victory

Special to the Telegraph

Newark, N. J., June 15.—The Princeton tiger shook the Yale bulldog here vesterday afternoon and then put a knot in his tail in the third and deciding game of the series. Score, 1 to  $\theta$ .

The game was won in the ninth in ning in a hair-raising finish and the bulldog limped off the field while the cohorts of the tigers paraded ma-jestically around the field. The game was a hummer and the 600 undergraduates and graduates of the two institutions were kept on edge throughout.

When the ninth rolled around and When the ninth rolled around and both pitchers going well it looked like an extra-inning contest. After Douglass had been retired Shea worked Garfield for a pass. Scully got one foot in the hall of fame by sending a single between short and third. This advanced Shea to second, and a moment later he brought the Princeton rooters to their feet with a clean steal of third. Law then laid down a bunt toward first base and Shea headed for home. The play was close, but the speedy Princeton players slid over the plate a fraction of a second before Bush's return reached there. The score by innings:

### MOTIVE POWER BATTLE

MOTIVE POWER BATTLE

Special to the Telegraph

New York, June 15. — Wilmington and New York played off the postponed P. R. R. Motive Power League game of June 3 on the latter's grounds at Sunnyside, L. I., yesterday. It was an easy victory for the Gothamites, 9-2. Rourke, on the mound for the New York boys, was touched for seven safeties, which he kept scattered. The game was featured by the sensational work of Gold and Leary, who ran wild on the buses; also the terrific hitting of Leo and Doderer, each having three bingles. The visitors played a loose game in the field.

Announced that it has placed the following selected new fiction on its shelves:

"Cathedral Singer," Aller: "Extra of low-sweet leaf gets close to the tongue and pleases the palate with rich, juicy flavor. And when the palate is pleased, digestion is aided and the general health promoted.

But the form of your chew is highly important. While tobacco is made in various forms for chewing, it is a fact that no form has ever been discovered which will compare in healthful and satisfying quality with the old-fashionel plug.

Chew a first-class plug tobacco, like American Navy, with the delicious, appetizing, digestion-promoting flavor pressed right into it and kept there, and you get all the enjoyment and beneficut of tobacco that the choicest leaf can give you.

No "scrap" chew made can compare with American Navy. In "scrap" only pieces of leaf are used, while the whole rich leaf goes into the American Navy plug. Also "scrap," being loosely packed, can't possibly hold the fresh fruity flavor of the leaf like a hardpressed American Navy plug.

Your first trial of American Navy will open your eyes to the genuine enjoyment there is in tobacco when it's pressed into golden-brown plugs and chewed. In 5c and 10c cuts.

See the Haynes-ride in it-compare it for appearance, power, flexibility and economy with any other six or eight—and we will leave it to your judgment if it does not deserve its name, "America's Greatest 'Light Six.'"

It is responsive—full of life and snap glides away like a bird as you press the throttle. In less than eight seconds you are hurrying along at the speed of the wind. Then, as you approach those treacherous railroad tracks, you throttle down to slower than a walk-less than one mile per hour on high-and cross without the semblance of a discomforting

With that level stretch ahead, you just can't resist opening her up all at onceand it's all right-you can't choke up the Haynes with its big, short throat.

Now, Mr. Buyer, here is what you can do on the hills of Harrisburg:

You can top Derry street hill at 25 miles per hour. You can start your car at the bottom of Berryhill street and top Cres-

cent street at 25 miles per hour. You'll climb Reservoir Park hill at any speed from 10 to 30 miles per hour.

It don't make any difference whether you

have one or seven persons in your car, The Haynes does it just the same. And the folks in the back seats are getting just as much fun as you. The springs

of the Haynes are long and resilient—the seats are roomy, the upholstery deep, soft and restful. Upkeep? These averages tell the story:

16 to 22 miles per gallon of gasoline—8,000 miles to the set of tires—400 miles to the quart of oil. Compare the Haynes for beauty, for performance, for economywith cars not only of a nearby price, but costing \$500 to \$1,000 more, and your choice will be the Haynes.

We will be glad to go the limit in showing you the car and giving you any information desired. And, best of all, we give you a year's service absolutely free. You will receive the most courteous treatment at our office. Phone or call for demonstra-
