Steel Trades Benefit by Freight Reductions; No Let-up in Present Production

"Little or no concern is yet shown over the stability of present high prices in the steel trades," says the Iron Age in its weekly review to-day. "Manufacturing consumers with stocks at hand and material still coming in under contracts much below present market prices have been making concessions on their products to secure a turnover, following some recent indications of an easier situation in mill sales. With contracts expiring this month, the surface ripples may have no wide effect, particularly as a renewal of export inquiry of large proportions has developed. Foreign buying is much encouraged by the sharp reductions in ocean freight rates, of 20, 30 and even over 50 per cent, from recent tariffs, and it is of great variety and from all quarters of the globe. Russia looms important in foreign demand. Already the indications are that the Steel Corporation is to export 150,000 to 200,000 tons of a total of 350,000 tons of 6 1/2-pound rails; within two or three weeks upward of 10,000 cars will probably be bought here, arrangements for a Russian loan having been perfected, and before the end of the month it is expected that a large tonnage of bar iron will be placed, though hardly the amount commonly spoken of, which is only slightly below the country's annual bar-iron-making capacity. It is doubtful if deliveries on the rails can begin before March. "War buying proceeds steadily. Bridge building and structural work was put under contract in May to a total of about 140,000 tons, which is slightly above the average monthly rate so far this year. Large jobs, however, are not numerous. Some 2,500 tons of closed section steel were placed and 3,000 tons will be required for the new mill at Indiana Harbor. Los Angeles wants 7,000 tons of reinforcing bars."

Court Hears Argument on Steel Company Sale

Philadelphia, June 15.—The United States Circuit Court of Appeals heard argument yesterday in the fight of Clarence H. Venner, a New York banker, against the sale of the Pennsylvania Steel Company and its subsidiaries to the Bethlehem Steel Company for \$1,941,650 in 5 per cent. gold bonds of the Bethlehem company.

Venner, who holds twenty-four shares of stock in the Pennsylvania company, seeks an injunction restraining dissolution of the Pennsylvania company and preventing its sale to Bethlehem Steel. He asserts the proposed merger is in violation of the antitrust law and that it is not in the interest of the Pennsylvania company's stockholders. The court reserved decision.

Plan Independence Celebration.—The committee from the Steelton Merchants' Association will meet to-morrow evening to make further plans for the Independence Day celebration to be held here. The Steelton band has been engaged to give a concert on Cottage Hill at 7:30 o'clock in the evening, a fireworks display has been contracted and a field meet is being planned for the morning.

Honor Former Pastor.—The Rev. John McDowell, former pastor of the First Presbyterian Church, who has the degree of doctor of divinity conferred upon him by Princeton University. He was pastor of the local church for three years after his graduation in 1884.

Beer Bottle Explodes.—When a bottle of beer exploded yesterday, Earnest Shadt, bar clerk at the Bessemer House, sustained a severed artery and other severe lacerations on his left arm.

FINE HORSES AT HOGESTOWN SHOW

Clouded Skies Fail to Keep Cumberland County Farmers From Attending

Clouded skies did not keep away the crowds on the second day of the twelfth annual Hogestown horse and cattle show at Big Head Woods, and long before the judges called for the first entries in the horse ring, the ropes were lined with expectant people. A number of the classes had numerous entries making the task of judging more difficult to-day than yesterday, as all of the horses were of the best stock. Another big class of boys were given an opportunity to judge the horses this morning in a contest similar to the one of yesterday. Among these were Charles Davis, James Neff, Robert Dipner, Raymond Radabaugh, James Coble, Thomas Bashore, John C. Knecht, John Fehl, George Eppley, Thomas Bricker, Richard Homer, Elmer Lower, Leroy Landis, John Zeller, Frank Cressler and Abram Dipner.

E. S. Bayard, of Pittsburgh, was director of the horse ring to-day. Other judges were R. Penn Smith, of Stratford; Professor J. J. Bibby, Professor W. H. Tomhave, Professor L. S. Kleinschmidt. Judges of the cattle yesterday were Professors H. H. Wing and E. F. Anthony, both of them commenting on the big improvements in the exhibits during the last ten years. In several of the classes the entries were almost all winners and several groups were made. In one of these four sets of prizes were awarded:

stand the power of beauty. Again, the woman who neglects herself must continually fight an unequal battle with her younger and better looking sister. Beauty may be only skin deep, but the woman who has improved her complexion and kept her face soft, white and free from wrinkles by the use of Am-o-nized Cocoa has an attractive skin that suggests a refinement which places her in a higher class than that occupied by the careless woman who has been indifferent to the development of her personal charms. Beauty is Woman's birthright and nature's greatest gift to enhance this charm is Am-o-nized Cocoa.
Note: Am-o-nized Cocoa recommended above by Winifred Grace Forest, the noted English Beauty Specialist, is one of the newer forms of cocoa cream. Unlike the older products it is pleasant to use, has a soft, fragrant odor and is used almost exclusively for massage and facial treatment in the English Beauty Parlors. American women who are treated by Beauty Specialists should insist that no other emollient be used on their face for massage. It is soft and pliant, ruins complexions too often result from the use of cheap massage creams. Am-o-nized Cocoa can always be obtained from any first-class drugist and is so easy to apply that the average woman has no need for the services of a Beauty Specialist. -Advertisement.

Beauty Specialist Tells Of Reliable Way To Become Good Looking
If your pink complexion is fading, if wrinkles are creeping into your face, if sallowness is destroying your beauty or pimples, blackheads, freckles and brown spots are making you unattractive, here is a simple, safe and reliable method for overcoming these destroyers of beauty that will bring you pleasant and most surprising results. Take your hand mirror to the window and examine your face closely, noticing carefully the size of your pores, the depth of your wrinkles and your natural tendency to freckle or facial blemishes. Next apply a generous amount of Am-o-nized Cocoa over the entire face and neck and leave on five or ten minutes and then remove by wiping with a soft dry cloth. A delightful surprise will await you. I have seen hundreds of women with dry, sallow wrinkled and flabby skin and those with enlarged pores and freckled pale faces entirely remove these blemishes and more than double the beauty of their complexions, simply by using a little Am-o-nized Cocoa once or twice daily as I have explained above, and this after they had in some cases been treated by expensive Beauty Specialists without obtaining any benefit. In many instances women can make themselves look from 10 to 20 years younger. Many a woman has obtained high social position or secured advancement in business ahead of her unfortunate rival who did not understand the power of beauty.

American women who are treated by Beauty Specialists should insist that no other emollient be used on their face for massage. It is soft and pliant, ruins complexions too often result from the use of cheap massage creams. Am-o-nized Cocoa can always be obtained from any first-class drugist and is so easy to apply that the average woman has no need for the services of a Beauty Specialist. -Advertisement.

stand the power of beauty. Again, the woman who neglects herself must continually fight an unequal battle with her younger and better looking sister. Beauty may be only skin deep, but the woman who has improved her complexion and kept her face soft, white and free from wrinkles by the use of Am-o-nized Cocoa has an attractive skin that suggests a refinement which places her in a higher class than that occupied by the careless woman who has been indifferent to the development of her personal charms. Beauty is Woman's birthright and nature's greatest gift to enhance this charm is Am-o-nized Cocoa.
Note: Am-o-nized Cocoa recommended above by Winifred Grace Forest, the noted English Beauty Specialist, is one of the newer forms of cocoa cream. Unlike the older products it is pleasant to use, has a soft, fragrant odor and is used almost exclusively for massage and facial treatment in the English Beauty Parlors. STEELTON MEN TO DISCUSS FUTURE

At Booster Banquet Tonight Plans For Improving Town Will Be Suggested

Steelton's future as a big business and industrial town will be discussed by the men who are endeavoring to make the borough a bigger, better and busier place at the first "booster banquet," to be given under the joint auspices of the Municipal League and the Steelton Merchants' Association.

The banquet will be held in Frey's Hall, Front and Pine streets, commencing at 8 o'clock. Covers will be laid for about 150 guests. Principal speakers will be Superintendent L. E. McGinness, of the borough schools, and Frank B. Wickersham, borough solicitor. C. S. Davie will act as toastmaster and the Steelton band will furnish music.

The committee in charge has spared no pains to make the banquet a success and worked hard to-day completing the hundred and one details necessary to insure a lively time. Members of this committee are W. H. Nell, president of the People's Bank; C. S. Davis, principal of the high school and chairman of the park and playgrounds commission; Walter Kelster, W. F. McGinness, M. J. Kane and G. M. Long, prominent business men.
