STATE INSURANCE ACT IS DEFINED

Mr. Hargest Gives Opinion to Superintendent Rambo Today

In an opinion rendered to-day to Samuel B. Rambo, Superintendent of Public Grounds and Buildings, it is held by William M. Hargest, deputy attorney general, that insurance placed upon buildings owned by the State must be only for periods which will end with the last day of 1920.

Mr. Hargest says that the purpose of the act was to have the State carry its own insurance. "No provision is made for insuring new buildings erected since the passage of the act and I am advised that the fund created by this act is amply sufficient to protect all such new buildings," says he.

After Crooks. — A campaign against fake and unscrupulous employment agencies in Philadelphia has been started by the Department of Labor and Industry. In the last few weeks, the department officials assert, many hundreds of dollars, not only in wages paid as employment agents, but by licensed employment bureaus. Flagrant violations of the act by which agencies are regulated, however, were also brought to the attention of the department. The first man to come under the ban of the department was George H. Tate, who had his license revoked yesterday by James J. Nolan, the department's investigator here. Tate conducted an employment office at Philadelphia, and was accused of accepting registration fees from applicants for jobs and of cooperating with "busters" or unlicensed employment agents. Several licensed employment offices regarded as suspicious are now under the surveillance of Inspector Nolan.

Consulate Burning and Gavina Execution Denied

Washington, D. C., June 16.—A consular dispatch direct from Durango, Mexico, received to-day, said there was no truth in the report circulated generally credited a few days ago that the American consulate there had been burned during an anti-American demonstration. The consul said there had been no attack on the consulate.

The State Department has received no recent reports of demonstrations in Northern Mexico and apparently the excitement has subsided, at least temporarily.

There was no confirmation here today of the report from El Paso that General Gavina had been executed in Mexico City, charged with treason for having entered into an unauthorized conference with General Pershing. It was officially reported some days ago that the Mexican officer had been ordered to the capital. Dispatches from Special Agent Rodgers yesterday made no mention of him.

M'CORMICK SAYS HE WILL ACCEPT

His Selection as National Chairman Not Pleasing to All Factions of Democracy

Vance C. McCormick, former mayor of Harrisburg, last night announced that if elected Democratic national chairman he would accept. The former mayor spent the day at Hogs-town show, which he was instrumental in founding, and last night said: "My selection by President Wilson is a surprise, for I have not sought the honor of the place he suggests to the Democratic national committee. If I can be of service to him, naturally, I am willing to accept the place if the national committee elects me for I believe this is a great opportunity for service for we can and will re-elect President Wilson."

The newspapers, St. Louis dispatches say that the McCormick selection caused considerable adverse comment among the Old Guard and machine elements in other States and that some of the Pennsylvanians did not like it at all. The New York and Illinois people are said to have registered "kicks."

The Philadelphia Ledger has this to say in a St. Louis dispatch, written by its Washington correspondent, a personal friend of McCormick and A. Mitchell Palmer: "The McCormick appointment came through A. Mitchell Palmer, one of the White House proteges. Primarily behind it is the idea of handling another invitation to the Progressives. McCormick ran for Governor of Pennsylvania two years ago. An effort was made to get fusion between the Democrats and the Progressives. William Draper Lewis, the Progressive candidate for Governor, withdrew and the Progressives supported McCormick. But Mitchell Palmer, the Democratic senatorial candidate, refused to withdraw and support Pinchot, the Progressive candidate. On account of this Progressive indorsement and support two years ago the Administration believed that McCormick would be an ideal candidate to head the national committee in efforts to get Bull Moose into their ranks. The other selections are all personal friends of the President."

"It was the fact that McCormick is a Progressive and aggressive young Democrat, representing the Wilson ideals in Democracy and the progressivism of Roosevelt, that finally induced President Wilson to agree with Mr. Palmer that Mr. McCormick was the proper man to run a campaign in-

Ferari Shows Here All Next Week

Among the many attractions of the big carnival which is out at Seventeenth and Chestnut streets all next week, under the auspices of the Royal Fire Company, No. 14, is the La Rose electric fountain.

A few years ago Mr. La Rose conceived the idea of building a portable fountain to carry on the road and exhibit for a short time in each of the smaller cities.

One of the beauties of the fountain was the life-sized plaster of Paris figures, arranged in artistic poses amidst the sparkling water of the fountain, but in traveling to and from the various cities these statues were too easily broken, so Mr. La Rose decided to use living models.

The girls pose in the fountain, presenting a greater and more beautiful array of statue groups than could possibly be accomplished with plaster figures.

The fountain is said to be the only one of its kind on the road, there are thousands of tiny streams of water rising from two feet to sixty feet, at all imaginable angles, and they change constantly, forming a remarkable variety of designs, dainty, artistic and grand.

The water takes on many colors, changing them as often as it does the designs, and giving the effect of millions of precious stones dropping from the air in sparkling splendor.

Suddenly the statues disappear and the final surprise comes, a huge gyrer leaps from one hundred to one hundred and twenty-five feet into the air; then gradually give guests were followed by a burst of fireworks mingling with the fairy mist of the water, and ending in an immense blaze of splendor.

The carnival will open Monday, June 19, and continue all week.—Advertisement.

The "Why" of Tausig Diamond Supremacy

For years this store has been accorded recognition for diamond-supremacy in Harrisburg.

Not chiefly because it carries the largest stock of mounted and unmounted stones in the city—

Not chiefly because through its volume of diamond transactions it is enabled to offer lower prices—

But, because not a single one of the many thousands of stones that have been bought here in years gone by, has proven to be anything but what we claimed for it.

Not all stones are perfect—not all stones are clear white—and consequently not all stones have the same commercial value per carat.

So, unless you are an expert judge of diamonds, you will require assistance in your purchase—assistance that is intelligent and conscientious.

And, that's where you'll find Tausig service invaluable to you. First, you may choose from the greatest variety of stones—secondly, you will learn from us just what it is—thirdly, you may buy it considerably cheaper here—and finally, your purchase will be backed by a written unrestricted Money Back Guarantee—which protects you for all time.

And that is true, whether the stone you purchase involves an expenditure of five dollars or five hundred.
