Absolutely Removes Corporation Clerk Resigned Office Three Weeks Ago and Leaves July 1

> Hale Hill, chief of the Bureau of Corporations of the Auditor General's department for the last two years, will retire from the office on July 1, having tendered his resignation to Auditor General A. W. Powell three weeks ago. Mr. Hill's retirement was voluntary, although it has been common knowledge that he had not been in sympathy with the political policy of his chief and of some of his asso ciates in the department. Mr. Hill was a supporter of Charles A. Snyder for

a supporter of Charles A. Snyder for Auditor General and was not enthusiastic about the Brumbaugh campaign. I There are also reports that he disagreed with other officials in the department over taxation matters.

Mr. Hill lives at Tarentum and is an attorney at the Allegheny county bar. He was associated with the Auditor General at one time. He succeeded James V. Murray as corporation chief, a position paying \$5,000, and has had charge of important corporation tax settlements. When the campaign started he did not go the same way that the Auditor General went and there are reports that he resented papers being circulated to make him a candidate for national delegate or alternate without his knowledge. However, he gave to Powell's fund and will likely get his check back, as it was not in the list as filed.

MAKING CHILDREN EAT

Nothing is ever gained by forcing a child to eat when it refuses food. Make surethat nothing is being eaten between meals to destroy the natural appetite and if your growing child does not have a healthful craving for good, honest food at mealtimes there is something the matter. Threats of punishment if the child does not eat will not correct the difficulty.

the matter. Threats of punishment if the child does not eat will not correct the difficulty.

A fitful appetite in a growing child, especially if the patient is pale, languid, nervous, irritable, and without ambition, usually means that the blood is thin. A non-alcoholic tonic such as Dr. Williams' Pink Pills is demanded. During her 'teens a girl lays the foundation for her future health. Lack of blood at this time may rob her of robust, healthy womanhood. It is of the greatest importance to administer to girls who grow pale and weak a safe tonic and Dr. Williams' Pink Pills meet every requirement of the most careful mother. They make the blood rich and red and it carries renewed health and strength to every part of the body.

with the frequent suggestions made in the annual reports of the department as to the necessity for giving protection to the workers of the State, particularly the mine employes, the first suggestion having been made in 1882 by the present chief of the department who was then a State mine inspector in the anthracite region. The recent suggestions by the department have been along the line of placing a tax on the coal production. A tax of 2½ cents a ton on the annual output, approximating 250,000,000 tons, would yield \$8,250,000 revenue, or \$120,000 a week, a sum undoubtedly adequate for the purpose.

"Under the act of 1915 the entire mining community will enjoy a protection never known before, and the interest of the server will have emphasized to him the necessity for constant attention to the ever-present dangers that surround his occupation.
