MAINLY EAGERLY OFFER SERVICES

Legislators, Former Officers of Guard and State Employes Anxious to Join Offers of service from former officers of the National Guard and men who desire to raise military organizations are pouring in at the State Capitol and reports are coming telling of marked interest in recruitment of companies to war strength in many parts of the State. It is likely that quite a number of organizations will go to the military camp at Mount Gretna close to the strength required for active service. The general orders for the Guard to mobilize at Mount Gretna, Pa. In 1893 Brumbaugh were sent out to-day and the major-general will open headquarters at Mt. Gretna, on Thursday. He will command the site for the annual encampment. On Thursday Colonel H. C. Trexler, quartermaster general, will open his office at the camp. Rausch On Guard Lieutenant-Colonel L. V. Rausch, superintendent of the State arsenal and deputy quartermaster general, is at Mount Gretna and the camp site is in readiness for the canvas and stores which are being sent in. Colonel Rausch had prepared the site for the annual encampment. On Thursday Colonel H. C. Trexler, quartermaster general, will open his office at the camp. Captain J. E. Kemper, of the United States Army, inspector-instructor, detailed to the National Guard and at headquarters here, will be the senior mustering officer. Captain Kemper has been in close touch with the organizations of the Guard for several years and is entirely familiar with it. The troop movements will start Saturday morning, arrangements having been made for cars, and the infantry will go in first. The cavalry and artillery will likely follow. The mobilization will be complete on Monday. State to Pay Salaries In all probability the Commonwealth will pay such officials and men who are connected with the State government their salaries while they are in the United States service. There are quite a number of organizations as well as some members of the Legislature. In 1893 salary allowances were made and Auditor General Powell will make up the matter with the Attorney General and State Treasurer. The State will not be handicapped for cash to pay for the mobilization. An appropriation of half a million dollars for emergencies was made to the Guard and this has been drawn upon for the Allegheny strike and for emergency repairs to the Thirteenth Regiment at Gretna, Pa. The Federal government will reimburse the State for its outlay. Among the men who offered services are Lieutenant-Colonel L. Benton Long, of Elk county, member of the Governor's staff. Several legislators also saw him about military companies if more are needed. Received No Reply The Governor has not received any reply from the men who submitted their request to Secretary Baker that the call on this State be enlarged so that the Third Brigade infantry can be included. At the meeting of the State Board of Pardons precedence was given to a case in which Senator J. H. Thompson, of York county, was attorney. Senator Thompson was attorney, member of the Tenth Infantry and desired to get his case ended so that he could get ready to mobilize. His request was granted and he took leave on Monday. Adjutant General Stewart and General Clement had several conferences to-day regarding details of the mobilization. The adjutant general's command will send word as soon as they start and when they expect to arrive at camp. No Earlier Assembly Orders Adjutant General Stewart has not received any request from Washington for earlier mobilization. All arrangements are being made with a view to mobilization on Saturday. Numerous offers of service in automobiles, motor vehicles of various kinds and motorcycles are being received at the Capitol. There are also offers of service in machine gun companies, motorcycle companies and aviation squads. These letters are being put on file for consideration later. The machine gun companies which had existed in the Guard were provisional and it was stated to-day that no authority existed under the law for them or for their equipment.

Welcome! Pennsylvania Retail Coal Dealers—Welcome!

RULES OF HEALTH FOR DYSPEPTICS DIETING UNNECESSARY

There are two ways by which people who suffer from indigestion, dyspepsia, sour stomach, flatulence, etc., can overcome the trouble. First, as practically all cases of the above are directly or indirectly traceable to acidity and fermentation, they can eliminate from their diet all foods which ferment and form acid, such as all starches and sugar and foods containing them, thus prohibiting bread, potatoes, fruits and most meats. About the only safe foods are gluten breads, spinach and small quantities of white meat of chicken or turkey. This diet is almost a starvation one, but it is sometimes quite effective. The second way, which appeals especially to those who like to eat hearty meals of good foods, is to eat whatever is reasonably digestible, neutralize the acid and stop fermentation by the use of a good antacid such as bisulphate of magnesium, a teaspoonful of which in a little water immediately after eating or whenever pain is felt, instantly neutralizes the acid, stops the fermentation and permits the stomach to do its work without pain or hindrance. Owing to its simplicity, convenience and effectiveness this latter plan is now being adopted, instead of the old fashioned, and weakening starvation process. In this connection it is interesting to note that since the widespread use of bisulphate of magnesium was established, many druggists have arranged to supply it in the form of tablets or capsules, which are equivalent to a teaspoonful of the powder form and are much more convenient to carry.

COURTS TO SAY IF MAN BE DEAD

Whether or not Charles Shaffner, who hasn't been heard of for more than seven years, is alive or dead, will be for the Dauphin county courts to determine after a hearing to be held Monday, July 2. Shaffner left this section of the county years ago and was last heard of several years ago in Little Rock, Ark. The absence of any word and the absolute failure of his relatives to locate him or to learn anything of him leads them to believe him dead. Incidentally the law holds that if a man is not heard of for seven years, he can be declared legally dead. Acting on this supposition of his death Catherine Shaffner, a relative, June 15, asked Register E. Danner for letters of administration and the court issued a decree fixing July 24 for the hearing. Redeem \$16,200 Bonds.—City street paving and grading bonds to the amount of \$16,200 will be redeemed July 1 by City Treasurer Harry F. Oves. Only one \$100 security is a grading bond, and there are thirteen \$50, twenty-eight \$200 and forty \$100 saving bonds. Those bonds were called in January 4, 1916, at which time the interest ceased, although the owners hadn't lifted them. Clear Aldine Man of Bankruptcy.—Application will be made by Ed. S. Miller, formerly proprietor of the Aldine hotel, the latter part of this week to John T. Olmsted, Federal referee in bankruptcy for a full discharge of his obligations as a bankrupt. The Aldine is one of the three hostilities which had been refused a license this year because of the wine room. Transfer License.—The Dauphin county court yesterday approved the transfer of the liquor license held by Garfield Fackler at the Fort Hunter hotel to Harry E. Petrow. Objections to the purchase price offered them by the State for their properties in the Capitol park extension zone were filed yesterday by George P. and Edward N. Cooper. The Capitol Park extension commission allowed them \$36,000 for their property at Short and South streets which includes an iron foundry and a printery, and they contend that the property is worth between \$50,000 and \$90,000.

REAL ESTATE LET CONTRACTS FOR 5 BUILDINGS

Harold A. Hipple to Erect Structures for Harrisburg Lumber Company Contracts have been awarded to Harold A. Hipple, Harrisburg National Bank Building, for the erection of five buildings for the recently incorporated Harrisburg Lumber Company. Seven-ten and Naudain streets and garage, as one of the last buildings of the group. This new structure will be 30 by 40 feet, and concrete blocks will be used in its construction. While no intimation of its cost is officially given, it is understood in realty circles that it will cost about \$2,000. Other buildings include a frame warehouse 50 by 60 feet; an office building of concrete, foundations and concrete block construction, 30 by 40 feet, and two storage buildings of frame construction, 20 by 100 feet. The Harrisburg Lumber Company is one of the city's newest business ventures and is meeting the long existing demand of builders for a lumber supply house within easy reach of the busy sections of the city. While no official announcement as to the cost of the new buildings has been made, realty circles understand that about \$10,000 to \$15,000 will be invested in buildings and equipment. Charles Prince is general manager. To Open Bids.—Specifications for the proposed five-story modern storage house of Dives, Pomery and Stewart are now in the hands of contractors, and bids will be opened in the near future. M. K. East, 222 Market street, is the architect. "PARK PLACE" SALE OPENS To-day marked the opening of the sale of building plots at Park Place, a suburban development located on the Jonesboro road, east of the colonial Country Club. Park Place has been laid out into building plots of liberal size, which are being sold on easy terms, and which will be tax and interest free for some time. Considerable publicity has been given to the development for some weeks past, and quite a little interest has been manifested therein. H. M. Bird, who is conducting the sale, said to-day that if expressions heard on all sides may be taken as a criterion, the first day of the sale should result in the disposition of a goodly number of the plots. The tract is reached via Lingiestown cars.

Formal Orders Call For Assembly at Armories Thurs. and Mt. Gretna Saturday

The formal orders to the National Guardsmen assemble at their armories on Thursday to mobilize at Mt. Gretna Saturday were sent to the printers late last night and the text was made public about midnight. The orders were issued by the Governor and were followed by the Governor and were followed by the Governor and were followed by the Governor. The following is the reference to standards: "No organization will leave its home station to proceed to the Mobilization Camp at Mount Gretna unless it shall have the minimum enlisted strength as prescribed for the Mobilization Militia and which is as follows: Companies of Infantry, 65 enlisted men. Troops of Cavalry, 65 enlisted men. Batteries of Artillery, 133 enlisted men. Engineer Companies, 65 enlisted men. Field Battalion, Signal Troops, 163 enlisted men. Ambulance Companies, 43 enlisted men. Field Hospitals, 33 enlisted men. "Future General Orders will give further information and explanation regarding the recruitment of organizations to maximum strength as required by Section 11, Tables of Organizations, United States Army. "Immediately upon reporting for duty, officers and enlisted men will as far as practicable be examined by an officer of the Medical Department before leaving home station, with a view of determining the presence of any infectious or contagious disease, and if any such exist, such officers or enlisted men must not be taken to Mobilization Camp. "An expenditure of seventy-five cents (75c) per day per enlisted man is authorized for each day or any part thereof of actual service at home station or enroute to Mobilization Camp. Contracts will be entered into by company commanders, or by Regimental Commissioners in cases where regiments are located in one armory. "The order also says: "In order that officers and enlisted men of this division may have time

City Gives Guardsmen Leave With Full Pay

Harrisburg officially added its little boost to obtain recruits for Uncle Sam to-day when City Council adopted a resolution granting leave with full pay to any employees in the municipal service who would be needed with the flag. The pay will be turned over to the families of the men. Commissioner Harry F. Bowman offered the resolution and it was unanimously adopted on Commissioner W. H. Lynch's second motion. The new order affects at least three members of the city's police force. They are: John Spangier, eighth regimental color sergeant; George Shumaker, member of the Governor's Troop, and Arthur Knell, Company D.

Commanders Have Orders to Attack if Troops Move

Mexico City, June 20.—General Carranza in a statement to the press last night reiterated his declaration that any movements of American troops except to the northward would be considered hostile and that Mexican commanders had been ordered to repel it, if made. Carranza said that Mexico desired to avoid hostility at any cost save the loss of national honor but that in any event foreigners would be protected. Minister of Foreign Affairs Aguilar declared that serious complications could only be avoided by the withdrawal of the American troops. He said that he regretted that the United States misunderstood the attitude of the Mexican people who had become distrustful because of the failure to recall the American soldiers.

Many other private corporations and public utilities informally laid plans for taking care of their employees with pay during their absence in Uncle Sam's service.

FIRE IN PRINTERY

Shortly after midnight last night fire of unknown origin started in a pile of rubbish on the top floor of the three-story building occupied by Harry J. Kurzenkabe's printery, Short and South streets. Alarms were sent in first Fourth and State and State and Cowden streets. All central companies responded. The fire was confined to the floor in which it started. The blaze caused several hundred dollars damage. Several firemen were slightly injured by flying glass.

The Harris Building and Loan Association Third and Broad Sts., Harrisburg, Penna. The bee stores up honey for the winter; the squirrel hides a stock of nuts for the rest of the year; even a dog buries a bone for tomorrow—the SAVING HABIT is nature's own means of self-preservation. The salaried man should invest a part of his salary each month where it will be safe, and will bring a good interest yield. Such a conservative place to invest is in the Harris Building and Loan Association. \$5 a month will buy five shares of stock in the Association; in 143 months you will have grown to \$1,000. Your money can be withdrawn at any time, but if it stays in for twelve months or longer you draw 5 per cent from date of certificate; if left in until maturity you draw a much higher rate. Send for our booklet, "The Harris Way" which gives the details of systematic saving on the small payment plan.
