Just One Application and the Hairs Vanish

12

(Toilet Talks)

Any woman can keep her skin free from unsightly hair or fuzz if she will Not Fear, but Conscience Is follow these simple instructions: When hairy growths appear, apply a simple paste, made by mixing some water with powdered delatone. Apply water with powdered detactors. Approximately this to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.—Advt.

Their Reason For Being

Excused

British Headquarters in France

sociated Press)-Unique among all the variegated units of the armies on the continent is the British Non-Combat-ant Corps-the conscientious objec-tors, who do not want to fight and who are not expected to fight. Not fear but conscience, is their reason for being excused. In England, where individual rights are so strongly recognized, the Quak-er is not required to bear arms be-cause it is against his religious scruples. When compulsion was applied, an-other class arose. They said they had conscientious scruples against the tak-ing of life. If they would not fight then they must work, the government decided. Where a man who enters the army under normal conditions must drill for many months before he is sent to the front, the conscien-tious objector is given a few days of drill, put in khaki, and sent to France at once. There he wields the spade instead of the rife. "There are the N. C. C.'s doing their bit," said their commander, an officer with a strip of colors on his breast, who had been, in several campaigns and was so badly wounded in this war that he was hardly fit for active ser-vice. "They get the same pay as the men in the trenches and the same ra-tions, with the extra allowance of meat which is given to the laborers' **Ready to Work** At the time, the N. C. C.'s were en-

Washington Square Players—a group of young semi-professional New York. ers who hired their own productions in defance of the existing dramatic rules and of the Broadway Managers. They began with no capital and played without salaries. At last their theater became famous and they have been able to earn a litle money. Dramatic critics, the best known in New York flocked to see them and were delighted with the result. The plays that they staged, including the work of some of the best modern authors, were original and worth while, and were presented in a simple and effective manner.
The chief value of this experiment as Mr. Eaton has pointed out, is that its possible to have a real theater slip most anywhere and see interesting that the Washington Square Players have accomplished can be done in almost any town or city in the United States. **REMEDIES FOR "CHIGGERS"** Washington, D. and it hist be classified in such the tail that it can be put into operation instantly, when the fateful instant comes; because the enemy will put his plans into operation at the same time we do, and the one whose plans are executed first will take long steps to-ward victory.

ward victory. The Tedious Job "The most tedious part is the logis-tic—the arrangements for supplying the fleet on the way and in the distant theater of operations with the neces-sary provisions, equipment and am-munition, and, above all, the fuel. The average superdreadnaught consumes about 460 tons of coal per day at full

munition, and, above all, the fuel. The i average superdreadnaught consumes about 460 tons of coal per day at full speed, and about 108 tons at 10 knots; and coal or other fuel for all the dreadnaughts, battle cruisers, cruisers of various classes, scouts, destroyers, submarines, ships, aircraft of differ-ent kinds, hospital ships, ammunition ships, transports, and the fuel ships themselves, must be provided by means that must not fall. "When the fateful instant comes, the final command to mobilize puts into execution whichever of the plans already made is to be followed; and for this reason it is clear that the var-ious plans must include all the var-ious plans must include all the var-ious orders that must be signed for carrying it into effect, including the particular word or phrase that directs the execution of that particular set of plans. It is the story that the final order to verage s bout 460

If you have Catarrhal Deafness or head noises, go to your drug-gist and get 1 ounce of Parmint (double strength), and add to it '4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick re-lief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catar-rhal Deafness or head noises should give this prescription a trial.
