Church at New Buffalo this morning.

RESINOL STOPS ITCHING AT ONCE

It is a positive fact that the moment Resinol Ointment touches any itching skin, the itching usually stops and healing begins. Unless the trouble is due to some serious internal condition, it quickly clears away all trace of eczema, ringworm, pimples, or similar tormenting, unsightly eruptions, leaving the skin clear and healthy.

And the best of it is you need never hesitate to use Resinol Soap and Resinol ointment. There is nothing in them to injure the tenderest surface. Resinol is a doctor's prescription which for over twenty years has been used by careful physicians in treating skin affections. They prescribe Resinol freely, knowing that its soothing, healing action is brought about by medication so bland and gentle as to be suited to the most delicate or irritated skin—even of a tiny baby.

Cool Food and Cooling Drinks

are what nature says you must have in weather like this. Drink ice water, iced milk, lemonade, limeade or fruit juice beverages at intervals during the day's work.

And be sure your refrigerator at home is kept well supplied with ALSPURE ICE—that there is always enough in the ice chest, to take care of an unusual call.

ALSPURE ICE is pure. It is made from filtered water that has been boiled, reboiled, skimmed and again filtered—no germs can live through such treatment.

Wife and Child Pry Log From Dead Man's Skull

Elizabethville, June 19.—Convulsive sobbing of her 5-year-old son yesterday attracted Mrs. Lawrence V. Deblier, wife of a Milford township farmer, to a distant part of their clearing where she discovered the youngster wearily trying to remove a great log from his father's crushed head. The wife helped pry the log from the dead man's body.

Deblier slipped while trying to move a couple of big logs on the farm of John Feldt, and one of the great tree trunks rolled upon his head, crushing in his face and skull. His small son was playing nearby at the time. Coroner Jacob Eckinger investigated the facts.

Deblier was 35 years old and was the father of five children, the oldest of whom is 6. Funeral arrangements have not yet been completed, but it is understood that Camp 110, P. O. S. of A. will have charge of the arrangements.

HENRY JAMES' DICTATING EXPERIENCE. (William Lyon Phelps, The July Yale Review.) I did not dream until the year 1898 that Henry James could draw a winsome, lovable, charming little boy, who would walk straight into my heart. This year was a notable year in our writer's career; because it saw the publication of "The Turn of the Screw," which I found then and find today to be the most powerful, the most nerve-shattering ghost story I have ever read.

WOMAN'S ARM BROKEN. New Cumberland, June 23.—Mrs. Emma Metzgar, who lives with her daughter, Mrs. A. S. Williams, in Market street, fell from the back porch yesterday and broke her arm.

WHEN REDSKIN IS GIVEN SHEEPSKIN

Popular Science Monthly Tells How Carlisle Students Graduate. A gaily decorated platform on which are seated the graduates, faculty, speaker and other invited guests; a lengthy program of music, orations and addresses, probably all cut to order and sugar-coated for the occasion; an award of sheepskins and a benediction—this, in brief, constitutes the stereotyped graduation ceremony of most colleges and schools.

AMERICAN FRIENDSHIP FOR ENGLAND. (George Burton-Adams in the July Yale Review.) We may find ourselves immediately concerned in the effect upon the world at large of the formation of the new British Imperial Federative Government. Certain world problems have already forced themselves upon us and have demanded much of our thought, though we have thought of them almost exclusively as if they concerned us alone.

American Flyers With French Break Two Records

Paris, June 23.—(Correspondence of The Associated Press).—Robert Rockwell, of Philadelphia, and Paul Pavelka, of Madison, Conn., have broken two records in their preparatory training at the Military Flying School at Buc, according to information given out at the headquarters of the Franco-American Flying Corps. Rockwell completed his trial flights

required before incorporation in the corps in twenty-five hours and was publicly congratulated by the officer commanding the school. Pavelka, who served fourteen months in the trenches with the foreign legion, established a record in pistol shooting while in the air. He placed twelve bullets out of twelve shots in the head of a moving silhouette, representing the body of a man, at a distance of 100 yards. His own with the machine gun is said to be fully equal to his precision with a revolver. Pavelka now has his license for the most recent addition to French aviation, the new fast Neuport biplane, as well as all the other machines in the service.

Willis Haviland, of Chicago, and Frederick Prince, of Boston, have also finished their preliminary training at Buc, and have gone to Pau to familiarize themselves with the newest machines before going to the front. Pavelka is completing his preparation at the Aerial Artillery School at Cazaux. Robert Soubrian, of New York, whose preparation was delayed by illness, will soon undertake his official trials and then join the corps.
