# LIQUIDATION OF **CORN PRODUCTS**

Reading and Mexicans Weak;

Metals, Motors and Shipping Shares Suffer

By Associated Press

New York, June 26. — There was steady liquidation of Corn Products at an extreme decline of 5%, making that stock, next to Reading, the most active issue of the forenoon. Reading's weakness and its decline of 3 points had no material effect on other rails, but Mexicans were lower by 2 to 3 points, with almost as much formetals, motors and shipping shares. Industrial Alcohol reversed its early course, falling to a new low price for the movement, and other specialties, including the war group, yielded to slight pressure. There were few neutralizing features, although United States Steel was. relatively firm. Bonds were lower.
