# Why Your Coal Bills Will Be Higher

The coal miners are now working under a new agreement which gives them more pay and shorter working hours.

Increased wages and an eight-hour day, instead of nine hours, necessarily adds to the cost of producing coal.

The new Compensation Insurance Act and the big advance in the cost of mining supplies are two large factors in the making of the higher prices.

### But You May Save 30c Per Ton

by engaging your supply now. The present prices are just 30c per ton lower than will be charged in the Fall.

Furthermore coal shipped in summer is usually much better prepared than winter shipments.

# ROTARY CLUB IN PATRIOTIC MOOD

Send Greetings to Kemper and Shumburger; Hear Addresses by Visitors

Patriotic feeling ran riot at the noonday luncheon of the Harrisburg Rotary Club at the Columbus Hotel to-day. The club has two of its members at Mt. Gretna with the troops— Captain James B. Kemper, of the United States Army, chief mustering officer, and Sergeant Major John C. Shumberger, of the Governor's staff, who is on special duty at headquar-

The Rotarians heard with enthusiasm that the lieutenant-colonecy of the Eighth Regiment has been tendered to Captain Kemper and that he will accept if the government permits, which it is expected to do. Kemper is one of the most popular members of the Rotary Club. He is a regular army man with a Philippine and Cuban service record and was one of the first men ordered to the Mexican border when the troops first went. Since then he has been assigned to duty, putting the National Guard of Pennsylvania into shape for regular service. He is one of the youngest captains in the service and is a nephew of former Governor Kemper, of Virginia. If he becomes lieutenant-colonel of the Eighth he will go back to the regular army after the Mexican trouble.

The Rotarians sent the following which it is expected to do. Kemper
