

Eat More Bread

Meats that used to cost a "shilling a pound" now cost a quarter—eggs that could be bought at 15 cents a dozen are now 30 and 40 cents—milk that was five cents a quart is now eight and nine. Even flour, the chief ingredient in bread, has clim' ed like everything. You can't bake bread at home anywhere near as cheaply as you

We buy flour in huge quantities—and large quantities mean low price. It has always been economy to buy good bakers bread, but far more than ever is this true

If you've never tried it, try it, at our risk, at once. If you are eating MODEY-BACK Bread, eat more of it, make it the backbone of every meal. Eat it instead of the high

Remember you get your money back if not satisfactory.
