**POLICEMEN ARE ALWAYS ON DUTY**

Referee Allows Compensation to Widow of Officer Hurt in Fall

The appeal of the city of Altoona from the decision of Referee Jacob Snyder allowing compensation to the widow of Policeman D. G. Calder, who was killed while on duty, has been dismissed by the State Workmen's Compensation Board in an opinion by Commissioner John A. Scott.

The case presents some unusual features because of the claim of the city that the policeman died of acute nephritis, not produced by his injury when he was thrown from a street car and the paralytic died nine days after the accident. The decision finds that the policeman died from results of the fall.

Mr. Scott finds that by his contract of service the policeman was, in some sense, always in the employ of the city, always subject to duty, at call, and that on the night of the accident he was on a special assignment. He also says the fact that the deceased immediately after the accident proceeded to the performance of his further duties under adverse conditions to some extent supports the view that he had not left his duties for purposes of his own.

Union Water Company is providing insufficient fire protection in the matter of water mains and the former claims that the latter named company had refused to extend their mains to certain parts of the borough, was also filed. The Valley Smokeless Coal Company, the Ideal Coal Company and the Sunny-side Coal Company, operating coal mines in the vicinity of Johnstown, brought complaint against the Johnstown and Stony Creek Railroad Company and the Pennsylvania Railroad Company alleging an increase by the first named company in its rates for the transportation of 15 cents to 1.5 cents per ton to 15 cents effective June 15, 1916. The plaintiff declares the rates to be unreasonable and excessive and asks reparation on shipments moving since June 15.

**GRIP AND NEURASTHENIA**

There is a form of neurasthenia that follows the grip. Doctors call it "post-grippal" neurasthenia. One of the foremost medical authorities of New York City in a lecture in the international clinics, said:

"Broadly speaking, every victim of the grip will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."  
Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of the grip. The rich, red blood expels the lingering germs from the system and transforms despondent grip victims into cheerful, healthy, happy men and women.  
If you have had the grip get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.  
On request we will send you a free pamphlet, "Building Up the Blood," which contains a chapter on the grip.

**Common Sense Will Stop Horrible Rheumatism**

The famous Opie, a great English painter, was once asked what he mixed his paints with. "Brains," he replied. Rheumatism cannot live long in a body that is cared for by a head full of brains. Brains or common sense is an avowed enemy to rheumatism. The poisons with which every rheumatic body is filled, arise in the kidneys, or stomach or blood. This poisons goes into the ordinary force of the blood. It lodges in the muscles and joints. It gathers around nerves and presses upon them. It inflames the flesh. Pain comes and remains until the cause of the trouble, the acids and poisons, are driven out of the blood.  
Salves and rubbing, lotions and baths, hot towels and water bottles will not reach down to the throne room of the trouble. What nature wants is more power to the blood. Many forms of rheumatism are caused by secret uses common sense and tells the man to get rid of this bad blood. Here is a chance for you to use your common sense. How?  
Get a bottle of S. S. S., the greatest blood purifier ever known. During 50 years it has cured thousands of cases of rheumatism and will cure you. It is purely vegetable and goes into the blood like rich food goes into it. It throws off all impurities and makes good, pure red blood.
