FORMALLY CHARGED WITH MURDERING POLICEMAN

A formal charge of the murder of Patrolman Lewis C. Hipple, who was shot last Friday morning while arresting two negroes, was preferred against Elwood Wilson, colored, by the coroner's jury at an inquest last night. The verdict was given in five minutes and shortly after Leroy Arms testified that he saw Wilson do the shooting. James White, colored, who was with Wilson at the time, was accused of being an accomplice, the jury recommending that White he held without bail.

LAUNDRY GOOD BAROMETER
OF BUSINESS

WELDING PROCESS USED EXTENSIVELY

One of the best barometers of the quantity of business being done in Harrisburg is the laundry. During the last few months the hotels of this city have been exceptionally busy and as a result the laundry bills with several concerns doing the work have been large.

Cone of the best barometers of the quantity of business being done in Harrisburg is the laundry. During the last few months the hotels of this city have been exceptionally busy and as a result the laundry bills with several concerns doing the work have been large.

At the Royal Laundry plant, located at 1334 Howard street, it was said that the hotels have contributed more than their share of work recently. Bedding, towels, table linen and personal jobs from the several hostelries not equipped with private plants have brought thousands of dollars increase during the last several months.

At this season of the year more than two tons of family wash is handled every week. Only a few years ago the quantity was much smaller and the washing of bedding, heavy undergarments, etc., have proven to the house-keepers that the laundries are better fitted to handle the work than are the homes and their not-to-be-depended upon washerwomen. The manner in which the flat work and the "all ironed" wash is being sent back into the homes each week has attracted the attention of the women who have tried it, with the result that the Royal Laundry done the "Royal Way" as yet, you cannot imagine what you are missing, and the prices charged are the most reasonable that could be imagined. Just phone for their wagon to call for a sample wash and that is all that will be necessary to make you one of their many satisfied customers.

WELDING PROCESS USED

The welding process is becoming in the welding process was established. The world is just beginning to realize a tries with two down on account of store the welding process was established, huge plants, employing hundreds, were forced to shut down on account of the welding process as broken just beginning to realize the welding process as broken place of machinery of the welding process the welding process as broken place of machinery would sometimes take two or even three weeks to be repaired.

The Harrisburg Welding and Braz-ting Company, located at 88 South us a continent of the well in

BIGGER, BUSIER AND

BUSIER AND

A bigger city because of our great advantages as a manufacturing and trade center. A busier city because of the livewires controlling our large business interests. A better city because of the wide church activities.

Now with all these assets, Mr. and Mrs. Suburbanite who live within trolley distance of Harrisburg, why not make this your buying cent of during the year 1916? It is doubtful if there is a prettier city in the United States than Harrisburg, with its beaustiful residences and streets, or whose stores give better satisfaction to customers than ours.

The line in which the Acme Sign Co., located at 25 N. 3rd street, is most interested and with which they are most familiar, is "Signs that produce publicity."

The people of Harrisburg of the coal where the Moonshine coal is and a fifty-dollar street, in most interested and with which they are most familiar, is "Signs that produce publicity."

The line in which the Acme Sign Co., located at 25 N. 3rd street, is most interested and with which they are most familiar, is "Signs that produce publicity."

The people of Harrisburg and with the decision in this marter, up until the Moonshine coal stand for the Acme Sign Co., located at 25 N. 3rd street, is most interested and with which they are most familiar, is "Signs that produce publicity."

The line in which the Acme Sign Co., located at 25 N. 3rd street, is most interested and with which they are most familiar, is "Signs that produce publicity."

The people of Harrisburg with the coal buying public as provided at 25 N. 3rd street, is most interested and with which they are most familiar, is "Signs that produce publicity."

The people of this city who have gone of the form of the people who have not only the common of the year.

coming season, a large portion of which has already been ordered from Mr. Gable.

Mr. Gable states that in the several industrial buildings that have already placed their paint orders with him, a large quantity of white lead, containing such properties as tend to reflect all the light possible, will be used. Where concrete floors have been laid, a special concrete paint will be utilized to good advantage. Considerable varnish and high grade stain has been ordered for use in some of the finest residence jobs.

We are told by Mr. Gable that as soon as the painting season gets in full swing, the prices of paint are sure to advance and for that reason he is advising his customers and the public in general to place their orders as much in advance of the time when needed as possible. This will enable him to buy at the present prices and protect his buyers from any future raises.—Adv.

COMPANY MAKES BOYS' WASH

COMPANY MAKES BOYS' WASH SUITS AND ROMPERS

The Jennings Manufacturing Company of this city who have for years been manufacturing ladies' aprons which have been sold from coast to coast, have added a new line to their business; that of manufacturing boys' wash suits and rompers and this line has already been very well received all over the country.

The materials being used are the very best that can be obtained, and even with the scarcity of dyes, they have been fortunate in obtaining all fast colors.

even with the scarcity of dyes, they have been fortunate in obtaining all fast colors.

With the wash suits their idea is to see how good they can make them and not how cheap, as they expect to build up a reputation for Jennings' wash suits the same as they have for their ladies' aprons, however these garments are most reasonable in price, workmanship and quality considered, and are sold in a popular range of prices, namely, 25 cents to \$2.00 each. These garments are all made in Harrisburg and are sold by many different Harrisburg dealers, among them are Bowman's, Dives, Pomeroy & Stewart, Kaufman's, William Strouse and E. M. Sible. Remember the name next time; ask to be shown the Jennings' sarments. In this way you are boosting home industry as well as getting the very best value for your money.

The company is now planning a new

your money.

The company is now planning a new and entirely modern building, the construction of which will soon be under way.—Advertisement.
