A MEXICAN SOUVENIR

From Mexico I carried home a can made of exploded cartridges which had fallen from a machine gun. It was made by a Mexican, who told me of a little Frenchman with the Federal troops whom it took a cavalry charge of a hundred soldiers to dislodge after he had worked havoc in their ranks; at the end of the struggle all they found were his exploded cartridges and his remains at the side of a disabled machine gun, with which he had held the attacking troops at bay.—Publisher's Department, National Magazine for June.
