New Post Toasties

New Post Toasties are ready to eat direct from the package. They have a fine new flavour—self-developed by a new patented process. It's the rare, true flavour of prime, white Indian corn itself, and these New Toasties are the first corn flakes that do not depend on cream and sugar for palatability.

The proof of this superior flavour is found by eating some from the package dry. They're deliciously good that way, but of course are usually served with cream or good milk.

Examine the New Post Toasties flakes. The quick, fierce heat of the new process of manufacture, not only raises the distinguishing little bubbles on each flake but gives a body and firmness that makes the New Toasties a more substantial food than ordinary "corn flakes."

New Post Toasties do not "chaff" or crumble in the package, and they don't mush down when cream is added. They come to you untouched by hand, and in moisture-proof packages that preserve their delightful oven-crispness until served at your table.

Well worth trying—these

THE WAR CHILDREN IN PARIS
 How beautiful they are, the war children! How well cared for, how thriving, and how showered with love! Their prolonged sestas in the Bois or in the gardens have freshened the bloom of their cheeks. Their immaculate pink-and-whiteness seems to testify to the girl mother's loving care of the now sovereign baby who for two years has had no rival. The mother's entire time is devoted to His Majesty, the baby, nor is he ever forgotten except occasionally when her thoughts wandering to the absent one,

she traces in the baby's dimpled face the sometimes fugitive, sometimes striking resemblance to his soldier-father. Sacred moments these when in the twilight the curly head and downy cheek resolve themselves into the pale or sunburnt features of one "somewhere in France!"—From Cartoons Magazine.

Price Sometimes Misleading

One point upon which some people fail in selecting lumber is that they think too much about prices.

"Oh! lumber is lumber—it doesn't make much difference where you buy it—it's all alike." That is the way many people talk.

There is just as much difference in lumber as there are in people.

Just as it pays to have staunch, reliable friends, so it pays to buy Dependable lumber.

You cannot buy lumber anywhere for a lower figure than we charge, quality considered.
