Dauphin, Pa., July 6.—Samuel Lyter, the ten-year-old son of Harry Lyter...

LIFE-SIZE SECTION OF A SMALL SILVERTOWN CORD TIRE.

These giant "Muscles of Mileage"

HERE are the Thews and Sinews,—the Muscles and Tendons of "SAMPSON,"—laid bare!

Here are the two layers of giant "Cords,"—laid transversely—one layer over the other—with a layer of live Rubber between.

Here is the Secret of Silvertown Cord Tire Strength and Endurance, revealed.

Each Cord flattened like a tape, so that each strand may overlap the other, at the tread (as fish scales do) bridging the interstices.

Each Cord STRONG enough to lift a Man's weight. Each giant Cord laid side-by-side with the next Cord, but FREE TO MOVE INDEPENDENTLY of the rest, without friction.

Free,—because each Cord lies between two layers of Elastic Rubber.

—Each Cord so thickly coated with that Elastic Rubber,—so thoroughly impregnated with it,—that no two strands of Cotton can touch each other,—saw across each other,—or wear each other out through Friction, Heat, or Chafing.

THAT is the secret of such wonderful FLEXIBILITY in Silvertown Cord Tires!

Each "Muscle of Mileage" permitted to play freely in its Elastic Rubber bed, as the Muscles of the powerful, but nimble Athlete, play,—in action.

This sinewy FLEXIBILITY, then, is what reduces

"Traction-Wave" to the Minimum, in Silvertown Cord Tires!

It conserves practically all of the Motor-Power, to turn the Wheels.

This,—instead of wasting a large part of it, in continuous BENDING of the stiff unyielding Walls, of other Tires.

It takes out of Motoring that continuous "UP-HILL" work which the bending of stiff Tires is equivalent to.

HENCE,—the Car equipped with Silvertown Cord Tires will—

—Coast down hill 30% further!

—Travel 25% further on each Gallon of Gasoline!

—Develop 17% more Speed from same Motor!

—Ride with 50% less Vibration!

With all this, Silvertown Cord Tires have such great STRENGTH, that they are practically immune to Stone-bruise, Puncture or Blow-out.

—Such marvellous ENDURANCE, that they have been driven 1500 Miles, at an average Speed of 76 Miles per hour, without changing a Tire.

Silvertowns are the easiest of all Tires to permanently Repair,—the most Aristocratic in appearance,—and the most Luxuriously smooth-running to ride upon.

You are paying for them NOW (without getting them) in the 25% additional Gasoline you present Tires consume.

Kills His Young Niece Then Takes Own Life

Norristown, Pa., July 6.—John G. Williams, 53, shot and killed his niece, Miss Martha Reynolds, 27, and then committed suicide here to-day.

The shooting occurred in a bedroom of the Reynolds residence. Williams also shot at his sister, Mrs. Jennie Reynolds, mother of the dead girl, but the bullet missed its mark.

Williams, who had been working on a steamship plying between New York and European ports, had not been in good health and several weeks ago was not expected to live.

Mr. Post has prospects of a busy time in his new position, for Colonel Roosevelt has received so many applications for membership...

Lewisport, Pa., July 6.—Levi Matter, an old horseman, is suffering with a sore hand due to being bitten by a horse.

TOURIST SLEEPER FOR GUARDSMEN

Will Travel in Ordinary Coaches Until They Reach Western Cities

Mount Gretna, Pa., July 6.—Organizations of the Pennsylvania National Guard which go to the border on the mobilization camp will travel in the railroad cars assigned to them here until tourist cars can meet them in western cities.

Adjutant-General Stewart to-day informed General C. T. O'Neill, the camp commander, that he had informed the War Department of the number of troops remaining in camp and of the routes and other details and the army officers are arranging that tourist cars, which are also in the West, shall be hurried to meet the Keystone State soldiers.

It is estimated that including the cavalry, which starts to-day, something like 4,500 men are to be sent from this camp. The camp at its maximum held 14,700 men...

It is believed that the tourist sleeper order will result in all of the men who have not yet left camp being provided with such accommodations along the route to Texas.
