

CAMP BRUMBAUGH NEARLY DEPLETED OF TROOPS

SIXTH GOES AWAY IN EARLY EVENING

Some Men Had Steel Cars Which Will Be Hot in Southern Climes

[From a Staff Correspondent.]
Camp Brumbaugh, Mt. Gretna, Pa., July 8.—The movement of the Fourth brigade for the Mexican border last night was attended by more or less of a stir. The whole Sixth regiment marched to the railroad sidings in heavy marching order, giving people an idea of what men must carry and the Fourth will do the same to-day. Hundreds saw the start and General O'Neill and his staff lined up at the station and were cheered by the departing men.

The Sixth was the first to get away anything near like the time set to go and the departure was ended soon after 6. The regiment went out well equipped and with the men munching sandwiches.

Shortly before the regiment left a large squad of recruits came in to go to the Eighth infantry and were immediately taken in charge by the men. They came from a dozen counties and are to be examined during to-day.

The first deserter was caught last evening. He was a Rhode Island man who had been enlisted in a Reading company. He "flew" the other evening and was found in a boxcar by some of his company. They tore the uniform off him, haled him to camp where the commander wrote out a dishonorable discharge and slapped him across the face with it. He slunk into the brush when they let him go.

Men who have been inoculated for typhoid fever prevention are now suffering from the effects of the second injection and glad that they will be able to rest on trains. The typhoid treatment makes arms sore and is worse than vaccination. If there is any weak spot it searches it out. Incidentally, the doctors, who are always veracious, tell the men that with the plain fare that they are getting the effects of the treatment are minimized.

Improvement of the roads is to go right on, which will be good news for many people who have been visiting the camp and who expect to get here when the recruiting depot is established.

KOERPER NAMED CHIEF SURGEON

Chief Medical Examiner Given Place on the Staff of the Division

Announcement was made by Adjutant General Thomas J. Stewart last night that Major Conrad E. Koerper, United States army medical corps, had by permission of the war department been appointed a lieutenant colonel and assigned to the staff of the Pennsylvania division as chief surgeon. Major Koerper was the chief examining surgeon of the mobilization camp and directed the examination of the men who assembled at Mt. Gretna under the president's call. He will join the division staff at El Paso.

General Stewart also announced that Major Walter C. Sterling, of Wilkes-Barre, had been appointed major and ordnance officer and assigned to the division staff. He is at Mt. Gretna and will go to El Paso at once.

The formal appointment of Major George Hugh Smith, Philadelphia, to be lieutenant colonel and inspector of small arms practice, was announced to-night.

The place of encampment of the Third brigade of the National Guard of Pennsylvania, consisting of the 9th and 15th regiments and the separate battalion, was to-night announced as changed by Adjutant General Stewart from Tobyhanna to Mt. Gretna. The date will be from July 22 to July 29. The reason for the change from Tobyhanna to Mt. Gretna is that the Monroe county place will be occupied by artillery in training.

EIGHTH TO CLOSE CAMP BRUMBAUGH

Col. Finney's Regiment Will Be the Last to Leave Mt. Gretna

[From a Staff Correspondent.]
Camp Brumbaugh, Mt. Gretna, Pa., July 8.—The greatest mobilization camp in Pennsylvania in over half a century will be closed and give way to a camp for recruitment of the organizations of the Keystone State Guard now in the federal service within the next forty-eight hours. The Eighth regiment, which has its headquarters in Harrisburg, will be the last regiment to leave camp, the reason being that its colonel is the junior of a junior brigade. With Col. Finney and his men will go General C. T. O'Neill, Allentown, commanding the Fourth brigade, and his staff and the hospital troops who have remained behind to take care of the medical end of recruiting. By nightfall to-morrow the troops will be on a "railroad" in Pennsylvania on the way to a "place on the border." The war department does not want the routes and final destinations published. Hence the information is a bit indefinite.

The fact that the Eighth was the last on the list to go was a benefit, as has been pointed out. Under the circumstances attending the medical examination which tore holes in the York, Chambersburg, Lewistown and Bedford companies, the time on hand has enabled the regimental officers to do something toward filling the gaps. Then the men have had chances for further drills, to recover from their typhoid inoculation, to get used to camp food and other affairs in camp life and last of all to get well equipped.

Schell Gets Everything
If there is anything in the quartermaster's stores which a regiment is allowed that Quartermaster E. M. Schell has not taken out no one knows it. Captain Schell has requested everything worth while and the men will go to the border with mosquito nets to wear and mosquito head gear having everything but socks and underwear of army pattern which they will get on the border.

The men of the Eighth will go out fully equipped, one of the reasons that will have everything. Yesterday big packing boxes were opened and uniforms for everyone and some for the expected recruits were received, while Captain O. M. Copelin signed up ordnance. The regiment put in a busy day yesterday unpacking and to-day it is getting "dolled up" for departure to-morrow night.

The time of departure and route of the Eighth are not definite, but the regiment may leave about 6. It is doubtful if people who go to camp to see the regiment will have much time to greet the members, which has been fine, enabling the men to get used to their work without inconvenience. The soldiers say they do not mind marching in the heat. It is good practice. Captain J. J. Hartman, who took charge of Company K, of York, is making a company out of it in spite of troubles.

Transfers Begun
It was a matter of great regret to Col. Finney to transfer men from the big companies from Harrisburg, Mahanoy City and Tamaqua to build up the York, Chambersburg and other companies, but all organizations had to show at least 65 and there was no help for it.

The regiment reported 1,025 men to-day and will be more by night. Recruits are being eagerly awaited and the men of the regiment welcome them with cheers.

The Eighth is equipped with white tents and it is expected that they will not last long on the border, where khaki is the rule. All regiments of the brigade have white tents and there are bets as to how long the regular army will stand for canvas that can be seen twenty miles. The Eighth's wagons, which were not set up, were started off yesterday. The regiment will have 23.

The Eighth went into the Spanish war with eight companies and about 850 men. It now has twelve companies and war strength would be over 1850.

Here Are Men Who Went With Co. I, 8th Regiment

Following is a full roster of Captain Frank E. Ziegler's Company I, Eighth Regiment Infantry, N. G. U. S., which command will leave Mt. Gretna mobilization camp on Sunday or Monday as part of the Fourth Brigade.
Captain — Frank Eugene Ziegler.
First lieutenant — Charles Hunter Chambers.
Second lieutenant — Robert Donald Jenkinson.
First sergeant — Charles Wellington Thomas.

Guardsman at Border Weds Newark Girl by Mail

Newark, N. J., July 8.—Although unable to be married by proxy last week because of legal difficulties, Miss Ethel Maud Sergeant and Private Louis Basemer, of the First Regiment, are to be wed by mail. Miss Sergeant signed a marriage contract in Newark yesterday and it is on the way to Douglas, Ariz., where Private Basemer is helping to guard the border. When he signs it he and Miss Sergeant will be legally man and wife.

Artillery Is Mobilizing at Tobyhanna Camp

Scranton, Pa., July 8.—Militia artillery units not ordered to duty along the Mexican border are being rapidly mobilized at the big artillery camp at Tobyhanna under orders from Major General Wood. The purpose of the mobilization is to teach the militiamen the use of the big guns. Since Wednesday morning more than 800 men have reached the camp, and more are said to be on their way. The Yale battery reached there yesterday.

CLEMENT'S HOME TO BE SOLD

Guard Commander Recently Made Assignment For Benefit of Creditors
Scranton, Pa., July 8.—The residence of Major-General Charles M. Clement, division commander of the National Guard of Pennsylvania, and his law library are advertised for sale by George B. Reimensnyder, an attorney, and the Sunbury Trust and Safe Deposit Company, which hold a \$55,000 judgment, as trustee for unsecured creditors. General Clement recently made an assignment for the benefit of his creditors. His liabilities are \$15,000 and his assets are said to be one-third of that amount.

Americans Return to Mexico City; Alvarez Gives Up; Rout Bandits

By Associated Press
Mexico City, July 7.—More than seventy American families who left Mexico City for Vera Cruz on their way to the United States have returned here, convinced that all danger of serious complications between the two countries has passed. More Americans who had decided to leave the country are expected to return here to-night.

The bandit leader Alvarez, who operated in the territory of Tepic, has asked for amnesty for himself and his band. With this surrender the pacification of Tepic has been completed.

General Romulo Figueroa has defeated a bandit force near Juchitlan, in the State of Zacatecas.

Powder Strikers Vote Not to Go Back to Work

Emporium, Pa., July 8. The Aetna Explosives Company posted notices yesterday that the gun cotton mills would remain closed until further notice.

Every barroom and wholesale liquor house was ordered closed last night until the strike is settled.

Motor Boat Patrols Hunt For Sharks Along Coast

Spring Lake, N. J., July 8.—Motor-boats manned by experienced fishermen, who trilled with quarters of sheep for bait and had loaded rifles ready, patrolled the sea off the beach here all day in an effort to destroy sharks that may be in the waters off Spring Lake. This plan was adopted by the local authorities pending the completion of a more permanent method to prevent the killing of other bathers in the manner Charles Bruder was killed yesterday.

The "Rising Star" of Rubber

GOODRICH TRADE-MARK

THE "Age of Rubber" is in sight! Hard upon the "Age of Steel," comes this new Epoch in World History.

As the Forests went down before the Woodman's Axe, Steel rose up to take the place of Wood,—with a huge additional field of its own.

As the Ranch, and open Cattle Ranges, yield to the Farm, so the Source of Supply for Leather recedes, while the population, which must wear Shoes, increases.

Here steps in RUBBER,—with a fast-growing production, on Plantations, ready to replace Leather,—in the near future,—at a lower cost, for better service,—plus a thousand uses of its own.

When Raw Rubber reaches that level of Cost which the huge expansion of Rubber Plantations predicates, a myriad uses will be added to those in which the present relatively limited supply is now consumed.

HERE is a Barometer, of present and prospective, expansion in Rubber Supply.

Year	Plantation Tons	Native Tons	Total Tons
1905.....	145...	60,800..	60,945
1907.....	1,000..	68,000..	69,000
1909.....	3,600..	65,400..	69,000
1911.....	14,100..	61,900..	76,000
1914.....	64,000..	60,000..	124,000

Estimated production after 1914.

1917.....	147,000..	34,500..	181,500
1919.....	183,000..	30,000..	213,000
1921.....	209,000..	30,000..	239,000

The significant feature of above is the enormously increased growth of *Cultivated Rubber*,—on Plantations.

That is what lifts the Rubber Industry out of the hard-bound limitations of the Leather-working Industry,—and other Industries dependent upon a receding supply of Raw Material for an increasing Population.

The World should be vastly interested in a Sound, Dependable, and Scientific expansion of the RUBBER Industry.
