O. Henry's Kitchener

It is an interesting fact that the death of Lord Kitchener has made American editorial writers think of a shop girl—a shop girl, however, who, doubtless many would claim is as deathless as the memory of K. of K., that is Dulcie, child of the brain of O. Henry, and heroine of "An Unfinished Story." Dulcie it will be recalled, got a said was a safe aweek. On her bedroom was a was been a supported by the said of a gallant kight General Kitchener was gallant kight General Kitchener was gallant kight General Kitchener was to be autiful, stern eyes, the only one there was to approve or condemn what she did. "He looked as if he might have a secret sorrow, and his wonderful mustache was a dream, and she was a little afraid of that stern yet tender look in his eyes." More than once when the longing for ease, a temptation to supplement her earnings as some of her less particular friends were doing, had almost overcome Dulcie a look at that uncompromising face turned the tide and the invitations of a certain over-friendly Tigsy were again refused. There lived once in France a soldier, Nicholas Chauvin, who was so demonstrative in his patriotic fervor that he made a fool of himself, and ever since his day a man who displays a cocky and hysterical patriotism is called a chauvinist. In England such a man is called a jingo. A jingo is always bragging about his country's preparedness to fight. In Germany this form of patriotism is known as Pangermanism. In Russia. It is called Panslavism, and in Russia. It is called Panslavism, and in Russia. It is called Panslavism, and in Kussia. It is called Panslavism, and in Kussia. It is called Panslavism, and in Kussia. are always for a third party. In some parts of the State the radical end is lining up to conduct a fight for its own irrespective of what the State organization may do and this accounts for the pre-emption of the Progressive name in a number of districts.

The State committee meeting is not scheduled until afternoon, but there will be numerous conferences during the morning at which a plan of campaign will be announced. William Flinn and other leaders, who are now among the Republican cenferees, if not leaders as yet, will be here during the morning to tell the rest that it is best to return to the party and work best to return to the party and work best to return to the party and work for its success as the Colonel is going

Little trouble is expected over the national ticket, but some may balk on the State ticket. However, the majority of the party chieftains are committed to the policy of returning to the party and there will be only a small number who will dissent.

Democratic National Chairman Vance C. McCormick, who spent Sunday at his country home near this city, left this morning for New York, where he will at once begin preparations for the formal notification of President Wilson, which will take place the latter part of this month or early in August. It is likely that the ceremony will take place at the President's summer residence. Mr. McCormick expects to make some announcements regarding the publicity and other places within a short time, according to what has been learned here. He will spend the summer in New York, with occasional trips to his home here.

Democratic State Chairman McLean, who was in Washington last week seeing national officials, will pay periodical visits to the State headquarters in this city during the next six weeks and then the headquarters will be made the chief center of party activity. The state chairman is paying visits to various sections of the State and will soon announce the committees which will have charge of the financial and other features of the campaign. The leaders announced, however, that any Washington party candidate who desires to make the race in November against the Republican nominee will be free to do so. Mr. Film said he did not think those who held only the Washington party nomination would care to make a fight. The lack of harvest hands is assuming serious proportions in some parts of the State and unless farmers can get help one of the best crops known in years will be affected. In some of the counties the wheat has ripened rapidly in the last few days and as the hay crop, which is a record-breaker, has been coming on about the same time the farmers have been going from morning to night and have been sending calls for help from all sections. The shortage of "help" is blamed upon the industrial conditions which are calling every man who wants a job and to the fact that the supply of foreign help is shut off. The military situation in this country has not af-fected many rural communities, although there are a good many instances where farmer lads developed the "soldier fever." Colored harvest hands, who have been the mainstay of many farmers in southern mainstay of many farmers in southern and central counties for years, have nearly all gone to the mills where work is rushing and pay is large, while the comparatively few foreigners who used to help and who knew what to do on farms are also swallowed up in the industries.
