difficult hygienic problems and it is, adopt it as follows, for its own: perhaps, unnecessary to urge still greater care than ever before owing to the possibility of this scourge invading Harrisburg.

During the vacation period the streets are largely used by the children as playgrounds and aside from any other consideration, even that of an epidemic, the paved highways should kept as clean as possible. Flushing from the fire hydrants is a comparatively easy matter and there is no doubt that Commissioner Bowman will co-operate in this precautionary campaign.

So long as the big McFall's dam holds fast down the river, we need fear no invasion by an enemy submarine cominvasion by an enemy submarine com-ing up the Susquehanna. We make this statement in reassurance of the carnival committee and the girls and boys who are making proper use of the Susquehanna basin at this time.

General Powell-will confer with istinguished landscape design the Planning Commission of Harrisburg with a view to providing an en-vironment for the splendid Capitol in harmony with its unusual character as a public building.

Inasmuch as all the property involved in the enlargement of the Capitol Park will have passed into the possession of the State before next vinter the Legislature will be advised through a special message by the Governor regarding the plans for

final treatment of the property. As the problem is carefully studied it becomes apparent that it is more a landscape proposition than a mere building problem. Auditor General Powell is with his

regiment on the Mexican border, but it is not believed his absence will be permitted to interfere with the conferences and final agreements re-garding the designs and plans to be submitted to the Legislature. Unless these preliminary steps shall have been taken before Fall, it is probable that nothing worth while can be accomplished next year. President Wilson has left the busi-ness of picking electors to National Committeeman A. Mitchell Palmer and his pals and it is said that they are trying to match the high class list of the Republicans filed yesterday and at the same time to satisfy some of the Democrats who prefer honors to pelf. The list will be made up within a day or so and after being scanned by Na-tional Chairman McCormick will be submitted to the President for his for-mal approval. It will then be put into the hands of Secretary Keenan, who will bring it here to file before next Monday evening.

John C. Shumberger, who broke records for the mobilization camp at M. Gretna by rising from the grade of sergeant major in the quartermas-ter corps to major, got his last promo-tion on the day when the marching mer of Zembo Temple, whom he had ulained and of whom he was captain, left for Euffalo. It was a sore dis-appointment for the major not to go with the Shriners, but the call of the sovernment was first with him and he has to miss the first convention in years. Major Shumberger has an excelle.t record in the National Guard. He was a member of the Governors Troop twenty years ago and served under Colonel F. M. Ott, then cap-tain, in the call for duty following the actimore riot of 1897 and was made a for the call of the Spanish War he for Rigade staff under General J. F S.
