The Harrisburg boys drove Sitton off the mound in the first, but Binghamton tied in their half.

Wild throws by Reed and Parson in the second and fourth innings were responsible for three of the Binghamton runs. Both teams hit the ball hard, but the umpires made several raw decisions, calling forth vigorous protests at several stages of the game.

The Brunswicks resumed their charges throughout the day and night, but next morning the Russians suddenly delivered a smashing counter attack at an unexpected point and overthrew two battalions, capturing a number of cannon and machine guns.

"After the forty-second attack the remnants of the steel division were withdrawn and are now at Vladimir-Volynski awaiting reorganization. The corps in four days fighting lost three-quarters of its officers and half its men. The Russian losses also were heavy."

French Now Look Down on Peronne From Height Only 150 Feet Above

Paris, July 11.—The French continue to report satisfactory progress in their great offensive in Picardy. Monday's operations again were confined to the southern echelon, which has consolidated and extended its hold upon the northern plateau opposite Peronne.

Peronne.

The outstanding French success of the day was the capture of all the German positions on Hill 37, the highest point of the plateau. The first French rush on Sunday carried them to the western slopes of this hill, on which they made good their footing; but the troops waiting there had been stopped until adequate preparation permitted an attack on the farm buildings at the summit, which the Germans had converted into a small fortress, being made with more speed and fewer casualties. They are now in full possession of this height, from which they lock into Peronne, 150 feet below.

outside the city, but the French believe that these are not likely to delay
the capture long when General Foch
decides the time is ripe to make it.
French artillery already is beginning
to throw a ring of fire around the city.
How effective that artillery now has
become is described by an officer attached to a heavy battery on the
Somme front, who said:
"Thanks to our aviators, we never
have been spotted by the enemy's air
service since we have been in our present position. Under these conditions,
our work is excellent. Objects aimed
at are smashed with remarkable precision. For example, we have just
lifted four shells at a bridge more than
fourteen miles away. Four times the
aviation officer who was watching
our 'shipments' arrive signaled us by
wireless the simple word 'bridge'."

London, July 11.—With the capture by the French of the La Maissonnette hill, which dominates the valley of the Somme and from which everything that happens in Peronne can be observed, one of the primary objects of the Anglo-French offensive has been achieved. The two armies now are engaged in an effort to organize and extend the limits of the ground they have gained and in repelling German counter attacks which are directed particularly against the British to the north of the river where they succeeded in regaining a footing in the Trones wood. At other points, however, the British have been able to make some progress, although necessarily slow, against well-fortified positions.

In asking for his release, however, Kukolic says that not only is he not guilty of slander but that he hasn't been around Slavinac for two months, that the accusation is merely a subterfuge to persuade him to hustle payment of his bill; that his health is poor; that he has a family to support, and the method used by Slavinac has been frequently employed before by him as the court records will show. In releasing Kukolic, Additional Law Judge McCarrell said there was apparently no reason for Kukolic's arrest.

New Trustees for Emaus.—Because of the removal of F. W. Liesman from the district and his subsequent illness, a vacancy existed in the board of trustees of the Emaus Orphanage, Middletown, and the court yesterday appointed Martin H. Gingrich to fill the unexpired term of eight years. The appointment dates from September 2, 1911, the last date at which Mr. Liesman attended a meeting.

From Jail to Asylum.—Following an examination yesterday in his cell by a lunacy commission named by the court. Henry Helman, charged with larceny, was adjudged insane and ordered to be treated at the State Insane asylum. The insanity commission was asked for by Warden William A. Mc-Ilhenny.

Bills Held Up.—Because the whole board of county commissioners had not officially ordered certain grading work on the Nineteenth street bridge approaches by the Steelton Transfer Company and some stenographic work on preparation of tax duplicates, County Commissioner H. C. Wells refused to O. K. bills amounting to a little more than \$125.

Captain Jack Resigns.—At its meeting to-morrow the county commissioners will likely fill the vacancy in the registrarship of the fifth precinct of the Second ward caused by the departure for the Mexican border of Captain George C. Jack, of the Governor's Troop. Captain Jack's resignation was accepted yesterday.

so many Repair Bills

If there's one thing more than another that sours a man against motoring and makes him wish he'd stuck to the horse-and-buggy, it's having to dig down every week or so to pay for some darned thing that has gotten out o' kelter. Correct lubrication will help to keep your car out of the repair shop and your hand out of your purse.

Atlantic Polarine is "correct lubrication" for eight out of ten cars. Under certain conditions, one of the other three principal motor oils-Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results. But, in all events, at least one of those four

oils is the one best suited to your particular needs. Ask your garageman which.

Atlantic Motor Oils are to correct lubrication what Atlantic Gasoline, the accepted standard, is to correct fuel. In either gas or oil, you can't go wrong on "Atlantic."

Train your crank-case, wash it out with a little Rayolight Oil, put in a fresh supply of pure, honey-clear Atlantic Motor Oil. You'll have fewer bills for repairs and be glad you took the advice of oil experts.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you, drop us a postal and the book will be sent you without charge.

The Germans on their part are heavily shelling the allies' front from Lens to the Belgian coast, but thus far there have been no attempts at infantry actions except for the usual raids in which both sides engaged.

The Russians continue their advance toward Kovel and now are engaged in a pitched battle along the banks of the Stokhod, which they have crossed at some points. On the rest of the eastern front, while there is continuous fighting at many places, no
