Taft Wants to Distribute Relief Supplies in All Land Controlled by Teutons

Washington, July 11.—The American Red Cross made public today a letter from William H. Taft, chairman of the society's central committee, which has been forwarded by the State Department to the British Foreign office asking that a Red Cross commission be permitted to go into territory controlled by the Teutonic allies and distribute relief supplies. The British government is barring such supplies now on the ground that withdrawal of the Red Cross hospital units has left no distributing agency to insure that consignments are not put to military use.

Mr. Taft's letter pledges the faith of the Red Cross that the proposed commission, names of whose members would be submitted to the British government in advance, would see that the supplies went for relief purposes only. The foreign office has not replied.

FAT FOLKS WHO WOULD REDUCE WEIGHT

A Safe, Reliable Method That Calls For No Drastic Diets, Weakening Purgatives or Tiresome Exercises

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that overweight people have to bear. If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from any good druggist a box of oil of korein capsules; take one after

A Real Flesh Builder For Thin People

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat? Where did the nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but you didn't burn it. You work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are probably sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Cut out everything but the meals you are eating and eat with every one of those single Sargol tablets. In two weeks note the difference. Let the scales be the judge. Five to eight solid pounds of fat will be gone. "stay there" fat may be the net result. Sargol aims to charge weak, stagnant blood with millions of fresh new red blood corpuscles—to give the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food, to prepare it for the blood in an easily assimilated form. Thin people tell how they have gained all the way from 10 to 25 pounds a month, while taking Sargol, and say that the new flesh stays put. Sargol tablets are a careful combination of six of the best assimilative elements known to chemistry. They come in 40 tablets to a package, are pleasant, harmless and expensive, and Geo. A. Gorgas and all other good druggists in this vicinity sell them subject to an absolute guarantee of weight increase or money back as found in every large package.—Advertisement.

each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.

PUDDLERS GET BIG RAISE

By Associated Press
 Youngstown, Ohio, July 11.—Effective July 1, the puddling rate has been increased from \$7.42 1/2 cents a ton to \$8.40 a ton, according to an official announcement by the A. M. Byers Company, of Girard, Ohio, operating the Girard Rolling Mill. Five hundred men benefit by the new scale, the highest paid since 1866. Other large mills in this district are expected to adopt the same scale to-day.

GERARD TO TAKE VACATION

Berlin, (Via London), July 11.—United States Ambassador James W. Gerard is planning to leave soon on a much needed vacation, the first real rest the ambassador will have had since the beginning of the war. Ambassador Gerard is unwilling to leave his post long enough to visit the United States and will take a rest cure in Denmark and Scandinavia. Mrs. Gerard will probably accompany him.

Volume Rises: Price Drops Quality Stands

—have built up one of the most gigantic industries of a gigantic time on this bedrock principle of QUALITY. Steadily—by the support of the motoring public—the volume of Firestone sales has gone up—up. Note this: A record of 257 per cent increase in sales for the five years since we moved into our new, enormous factory—

\$7,462,581.17 in 1910—\$25,187,884.33 in 1915

Add to this unprecedented growth the increase of 38% so far for our 1916 fiscal year! This, automatically, brings the cost down—down.

Emphatically, the Firestone Organization must continue to deserve the enormous patronage of those who KNOW. You get the benefit of this patronage in the low Firestone prices, made possible by volume and efficiency.
