CHRISTIAN ENDEAVOR CONVENTION BULLETINS

The "white parade" postponed yesterday because of the thunderstorm is scheduled for this afternoon at 4 o'clock. The convention picture will be taken at the Capitol.

Resolutions were passed by the State Christian Endeavor Convention this morning including greetings to members in the State militia called to the Mexican border, endorsements of the campaign for a million new members, and a pledge to work for a "Saloonless Nation in 1920" and the furtherance of the local option cause in Pennsylvania.

The convention also went on record as being "irrevocably opposed to cigarettes" and urges such agitation and education as "will lead to a complete discontinuance of their use."

Pledges were also made to work for world peace. The last day of the great Christian Endeavor convention dawned this morning with the delegates just a little bit tired but still alive with desire to get every last bit of information and inspiration which it would be possible for them to get.

BRITISH RESUME DRIVE BY TAKING GERMAN DEFENSES

Capture Strong Positions of Longueval, Bazentin-Le-Grand and the Trones Woods in Attack Which Starts Before Dawn; Still Pushing Forward; Break Through Over Front of 5,000 Yards

SECOND PHASE OF GREAT ALLIED OFFENSIVE SUCCESSFUL AS FIRST

Have Already Brought Right Wing on Par With French Left and Are Thrusting Salient Between Peronne and Bapaume, French and British Objectives Respectively

Renewing their great offensive in Northern France at day-break to-day the British broke into the German second line in the Somme region along a four-mile front.

This offensive was still in full swing when the British official statement was issued shortly before noon in London. The village of Longueval and Bazentin-Le-Grand, were unofficially reported captured, as were the capture of Trones wood and a gain of ground east of Contalmaison.

The force of the drive apparently was exerted chiefly to the northeast in a push toward the British objective of Bapaume along the southerly flank of the curving German line in the Montauban region. Longueval lies 1 1/2 miles northeast of Montauban and is approximately six miles from Bapaume on the main road between that city and Maricourt, while Bazentin-Le-Grand lies slightly to the west.

In the Verdun region the Germans have so far not followed up their bombardment of the fort Souville region by further infantry assaults. Heavy artillery fire in this sector is being continued. German activity was noted north of the Aisne where attempted.
