Scheffer, of 10 South Nineteenth, street, in compliment to Mrs. Robert C. Williams, wife of Lt. Colonel Williams, United States Army, who will soon remove from the city.

The War Relief Clearing House with executive offices at 40 Wall street, New York City, is recognized by the French Government as the official representative of charitable American organizations in France. It is instrumental as a personal representative in providing for emergencies which arise from the conflict across the ocean as well as in meeting the extraordinary demands on the hospitals in caring for the wounded. In undertaking to meet this situation the clearing house looks to the public for a continuation of generous support. The clearing house co-operates with the American Relief Clearing House of France and its committees, representing the various allied countries; it is kept reliably informed as to what form of relief is most needed and where, and disseminates such information to affiliated organizations in America; it acts as a purchasing and forwarding agent for organizations and individuals wishing to contribute funds or supplies, thereby giving contributors the benefit of its exceptional prices; it enters contributions of supplies into ports of the allied countries, free of customs duties; and makes no charge for services whatever and insures quick, sure and prompt delivery of supplies from wherever they may be sent. Mr. and Mrs. W. H. McGowan of Medford, Ore., have been greeting old friends in the city and visiting their relatives, Mr. and Mrs. Harry Crane at Perdix. Mr. McGowan, a former Harrisburger, and son of the late James McGowan left here 26 years ago for the West. He represented the Medford Lodge of Elks at the recent convention in Baltimore.

Plan For Distribution

The plan for distribution of supplies through the means of this organization is that contributions for particular consignees, if recognized hospitals, organizations or societies, are accepted by the clearing house for delivery as consigned but as the American Relief Clearing House of Paris, through its investizations, knows at all times where the need for relief is most urgent, contributors are asked to leave, as far as possible, the distribution of relief supplies to their discretion.
