

STATE MAY PAY FOR MOBILIZATION

Move Under Way For Reimbursement For Time in Penna. Camp

El Paso, Texas, July 20. — In view of the fact that more than 10,000 Pennsylvanians, privates in the ranks, have now been away from their homes and all means of private income for a period little short of a month, and in that time have received a total payment averaging only four dollars per man, it is not unlikely that within the next few days some of the higher officials will combine their influence in an effort to have the men receive the difference between the State and the Federal pay for the time between their call to the armories and their mustering into the United States service.

It is estimated that such a move would mean much to many of the men, and the company officers believe that if the State of Pennsylvania can be prevailed upon to accord what is no more than mere justice to those of its citizens, who have committed themselves to serve their Nation in any crisis during the next six years, it will be a great contribution to the morale of the militia, and the State will serve to relieve instances of real financial stress and privation.

Feel State Should Pay Almost unanimously, and their officers do not disagree with them, they feel that the great State of Pennsylvania, in whose name they responded to the call to arms, should pay them the difference between the Federal and the State rate for the period they were under mobilization within the State.

Mlle. Verlet of the Paris Opera, famed Belgian Coloratura-Soprano, is but one of many great artists who have proved by direct comparison that Edison's new art re-creates all forms of music so exactly that the Re-Creation cannot be detected from the original.

No! Your neighbors could not tell which is the real voice of Mlle. Verlet. If Alice Verlet, of the Paris Opera, stood on your verandah, or near an open window, and sang in direct comparison with Edison's Re-Creation of her voice, your neighbors could not distinguish one from the other — nor could you, unless you watched Mlle. Verlet's lips.

The NEW EDISON

is not a talking machine. It embodies a new art whereby all forms of music are actually re-created. It is not alone Alice Verlet's voice which is so re-created. No voice is beyond this new art.

Come to us and hear Edison's Re-Creation of the work of the world's great singers and instrumentalists.
