The students are on the rifle range all this week, where they will be followed Saturday by the businessmen, and proud indeed is the man or boy who wins the right to wear an expert rifleman's or a sharpshooter's medal.

The sidelights on this conglomerate assemblage of celebrities and mere men are many and interesting. The brother of the holder of the national amateur boxing championship marches in line with the member of the diplomatic corps at Washington with the decidedly English accent; the former all-American Princeton guard goes swimming with the executive secretary of the Training Camp Association; the young marvel who stirred the public some years ago by graduating from Harvard at the age of 14 is working ambitiously to advance from the ranks; and everybody gets along with everybody else.

To Look and Feel Bright in Hot Weather

This is the season when she who would have a lily-white complexion should turn her thoughts to mercolized wax, the firm friend of the summer girl. Nothing so effectually overcomes the soiling effects of sun, wind, dust scorched, discolored, freckled, withered or coarsened cuticle, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unclogs the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercolized wax, obtainable at any drug store, applied nightly like cold cream, and washed off mornings, will gradually improve the worst complexion.

complexion.

When depressed by the heat and you want to freshen up for the afternoon or evening, bathe the face in a lotion made by dissolving an ounce of powdered saxolite in a half pint witch hazel. You'll find this more refreshing than an hour's rest. It is fine for smoothing out wrinkles, even the deeper ones.
