## BRITONS FIGHT WAY FORWARD

[Continued From First Page.]

ing vessel Prins Valdemar, bound from an American port for Sweden with a cargo of oil. The British steamers Yser and Grandmoor, both vessels of more than 3,000 tons are reported sunk.

Vienna announces that two submarines, one of them Italian, have been destroyed in the northern Adriatic by Austrian torpedo craft.

The succession of advances by the Russians in Turkish Armenia has been added to by the capture of Gumushkaneh, forty miles northwest of Erzurum which region was captured by Grand Duke Nicholas' forces. The forward drive here has carried the Russians westward to a line even with the important city of Erzurum, which is fifty miles to the south is the objective of the Russians advancing from Mankhatun.

Shortage of food supplies is reported from Rotterdam to have led to serious rioting in part of Belgium and northern France occupied by the Germans. As a consequence, after suppression of the riots, large sections of the industrial population of the cities affected are said to have been scattered homeless through the agricultural regions.

### General Confidence of French Greatly Enhanced by Battle of Somme

By Associated Press

Paris, July 21. — The resumption of the battle of the Somme in the French sector has greatly enhanced the general confidence in the situation. The protracted halt of operations of more than a minor scale was beginning to make the public fear that the first results would have been tomorrow and that the case of the Champagne offensive a year ago there might be a reversion to the old trench warfare. Yesterday's bulletins effectually removed this impression.

A particular early piece of work from the trench point of view was accomplished in the new sector attacked south of the river. East of old French fortification in a star shaped wood and on the slopes of a hill. There were 90 trenches in the wood, very deep with two series of underground shelters in which the soldiers lay snug during the hottest bombardments.

### French Skillfully Led

The Germans here as in the Barleux and Soyecourt region where their position formed an inextricable mass of trenches, offered a stouter resistance than elsewhere on the long line of attack. But the French troops, carefully prepared for their work and skillfully led, not only won through everywhere, but held on to their gains and were preparing last night to attempt to still further extend them.

It now develops that yesterday's effort was due several days ago but that the artillery preparation was delayed by heavy weather. The French commanders report that the preliminary bombardment was so effective that the losses of the attackers were comparatively light.

Contrary to expectations the Germans have made no attempt to follow up the smashing blow delivered against the northern Verdun defenses a week ago. The French counter attacks, according to the official accounts, are gradually winning back the ground gained by the Germans at heavy cost in the vicinity of Thiaucourt and nearby. This inactivity on the part of the Crown Prince is interpreted by French military opinion as evidence that the Germans are finding increasing difficulty in concentrating troops at any one point on the front. The French officers say that each fresh assault on Verdun is requiring longer and longer time to prepare. They claim that the Germans are now less than 18 days in preparation for the attack of July 12.

### Threaten Air Raids as Reprisal For Bombardments

By Associated Press

Berlin, July 21 (Via London) — Threats of air raids on open French towns as measures of reprisal, are made in an official statement issued here to-day.

The statement says that the French airmen have bombarded towns in the black forest which are outside the zone of field operations, while the German air attacks have been up to now directed exclusively against fort-

## NOMINATE HANLY AND HENDRICKSON

[Continued From First Page.]

and this added a new element of doubt to the presidential nomination race, which had tightened with the announcement last night that the name of Finley C. Hendrickson of Cumberland, Md., would be presented.

Supporters of J. Frank Hanly, Indiana, professed not to be alarmed by this development, saying they still are confident that their candidate would win easily over both Hendrickson and William Sulzer, of New York. According to plans of the various factions, Hanly is to be placed in nomination first.

E. W. Chafin, of Arizona, is to present William Sulzer's name after which Mr. Hendrickson will be nominated by George R. Gorsuch of Maryland.

The platform of the prohibition party adopted to-day included E. W. Chafin's plan endorsing the initiative, referendum and recall.

The national convention recommenced work shortly after 10 o'clock. Names of new members of the national committee were confirmed.

The nomination of presidential and

## vice-presidential candidates was the next order of business.

Nominating speeches were limited to ten minutes and seconding speeches to five minutes. Alabama yielded to Indiana and amid an outburst of applause, Sumner W. Haynes began his speech nominating J. Frank Hanly.

George R. Gorsuch, nominated Finley G. Hendrickson of Cumberland, Md. The Maryland delegation cheered.

Arizona was called and E. W. Chafin placed in nomination the name of former Governor William Sulzer, of New York. His speech was punctuated with applause and when he concluded with the declaration that "Sunday school politics have prevailed too long in the prohibition party and we now need a statesman for our leader," a demonstration lasted four minutes.

## ASK RULERS' AID IN SENDING FOOD

[Continued From First Page.]

ization in Poland as has been maintained with such success in Belgium.

The following statement was given out at the White House:

"The President has sent personal letters to the King of England, the Emperor of Germany, the Czar of Russia, the Emperor of Austria, and the President of France, suggesting the taking up entirely afresh of the matter of the relief of the overwhelming suffering in Poland and tendering the friendly offices of this government in negotiations as to the possibility and method of such relief, any plan proposed to be of such character as to be adopted to the accomplishment of no other result than that of the relief of the distressed inhabitants of Poland."

The President sent the letters at the earnest solicitation of natives of Poland living in this country who have told him that conditions in Poland are beyond description, that men, women and children are starving and that all efforts to extend relief has failed.

## VILLA IN PERSONAL CHARGE

San Antonio, Tex., July 21. — Collaborations of the reports that Francisco Villa is personally directing a campaign that has for its object the capture of Torreon, was contained in a report from General Pership to Gen. Funston to-day. The message was filed yesterday at Columbus and appeared to have been written the day before.

## Russia Will Disregard Hague Principles on Turk Hospital Ships

By Associated Press

London, July 21. — A Reuter's Petrograd dispatch says that the Russian minister of foreign affairs has informed the Turkish government through the ambassadors of the United States and Spain that Russia will henceforth disregard the principles of the Hague convention as far as Turkish hospital ships are concerned.

All of the crew and officers were taken prisoners.

The hull of the submarine is in good condition, but shows a number of dents where it struck obstacles in its underwater voyages. The craft shows signs of rapidity of construction but appears well fitted for short trips across the North sea. British naval officers pointed out that the mines carried no apparatus for rendering them harmless if they broke loose from their moorings as required by The Hague Convention.

## German Property in Italy Subject to Sequestration

Rome, July 21. — A ministerial decree was issued to-day placing the persons and property of Germans on the same footing of those of Austrians and Hungarians. The decree does not directly mention Germans, but states that allies of Austria are to be treated as enemies and their subjects and goods are liable to sequestration.

Prior to the war German property and interests in Italy were estimated to be worth \$250,000,000. There are only a few German subjects now in Italy and these will be either placed in concentration camps or sent across the Swiss border.

## Assure Two of Week's Outing

[Continued From First Page.]

tive of the American Pad and Paper Company, Holyoke, Mass.

The movement in which Mr. Kelley is the first to be begun by the park authorities Wednesday evening through the columns of the Telegraph. Somewhere in the city there are scores of youngsters whose only hope of an outing is the portion of the day or night they may spend in the parks. One week's stay on McCormick's Island—and all the nice things to eat, the tennis, the boating, the swimming, the games, and the other things that help to make a day a joy forever on the island—costs only \$2. The park officials suggested that this offered an excellent opportunity for some generously inclined citizen with a \$2 bill or more at hand to put that money to good use.

The second week of camp is on and

# Not a thing Lacking!

Many low priced cars have no electric starter, no electric lights, no speedometer, no extra rim—in short, are lacking many very essential things. But the \$635 Overland has everything. It is completely equipped. There is nothing extra to buy. That is one of the many reasons why this is the world's lowest priced automobile.
