Her brother Paul, who hastened to release her, was also held fast by the wire. Their cries brought their father to the scene and he was likewise held.

CAPT. JACK OF TROOP C IS 44

Passes Another Milestone While Along the Rio Grande; Men in Good Spirits

Camp Stewart, Fort Bliss, Tex., July 24.—Captain George C. Jack, of Troop C, the Governor's Cavalry of Harrisburg, yesterday celebrated his forty-fourth birthday.

[By Special Correspondence]

Captain Jack has been captain of Troop C for more than a half dozen years, receiving his commission in 1910. In First Lieutenant Edwin A. Nicodemus, and Second Lieutenant George Roberts, he has two able assistants so that the troop is fast becoming one of the best drilled in the entire regiment.

The troop presents the best appearance of any troop in the regiment, the uniforms being neat and fitting, while many of the uniforms of the men in the other troops are baggy or too small.

The Harrisburg boys will have a complete change of clothing, including underwear, as soon as the new equipment is issued. Within the next few days the Harrisburg troop will receive their wages for the month of June. The payrolls have been made out and the money, at the rate of fifty cents a day, will be paid the men before the week is out.

Want More Money

Fifty cents daily is United States Army wages instead of State wages, and the men are much disappointed that their wages are so low. They claim they were working for the State of Pennsylvania during the month of June, not being mustered in as United States soldiers until just before the troop left Mt. Gretna for El Paso. For this reason, claim the troopers, they should be paid at the rate of State militia instead of United States Army wages.

Each man is allowed 26.87 cents daily for food, and the mess sergeant and cooks of each troop must order food enough for the men to last ten days on this basis. Coffee, bacon, flour, bread and other "luxuries" are quoted at various prices, and the troop and commanders must order the food to be paid for out of the "credit" at the commissary corps store.

For the last three days, there has been no rain issued to the troops, and the men had to go back to the track. However, there has been fresh meat, potatoes and other varieties of food so that the men are not complaining.

Nights Pleasant

Although the days are very hot here, the temperature rising to over 100 degrees in the afternoon, the nights are pleasant for sleeping. The nights do not get cool, and there is no dew to make sleeping uncomfortable. A man may sleep on the ground anywhere, and catch cold. The sun drops behind the mountains that fringe the camp shortly after six o'clock in the evening and at 7:30 it is dark.

Press Finger and Cure Any Ache, Says Doctor

Pittsburgh, July 24.—How the most irritating toothache may be relieved by pressure on certain fingers, and the cure of lumbago, hay fever, wry necks and other ailments accomplished by almost the same process, was outlined by Dr. Fred Kellogg, of Providence, R. I., before the Pittsburgh Osteopathic Association in a lecture on "tooththerapy."

According to Dr. Kellogg, one has but to press a toothbrush against the roof of his mouth to effect a cure for headache. All one has to do when suffering from a troublesome case of either hand on a hard object, preferably aluminum.

World Crop Estimate Given Out by Institute at Rome

Rome, July 24.—The latest report of the International Institute of Agriculture indicates that the world's crops this year will be less abundant than last, but that harvest prospects are better than the average in the five-year period.

For the United States the wheat total is estimated at 207,000,000 quintals or 25 per cent less than last year; for India 87,000,000 quintals or 15 per cent under last year; Italy, 52,000,000 quintals or 12 per cent increase over last year; Spain, 42,000,000 quintals, as compared with 55,000,000 quintals average for the preceding five-year period.
