Charge of Mt. Gretna Camp

Lieutenant Colonel Harold L. Jackson, of the Thirty-fifth Infantry, U.S. A., arrived in camp yesterday, to take charge, as commandant, of the United States Army recruit rendezvous, which has been established here.

It was announced that Captain Frank Leisenring, U.S. A., would remain here to assist Colonel Jackson in the muster work, while Captain J. P. Castleman, U.S. A., who was here in the capacity of a mustering officer, received orders to report to his command at Columbus, N. M. Captain James B. Kemper, former chief mustering officer here, leaves to-night to join the Eighth Infantry, Pennsylvania National Guard, at El Paso, Texas.

Colonel H. C. Trexler left last evening on his return to Allentown, having completed his work as chief of the quartermaster's corps of the Pennsylvania Guard.

Adjutant General Thomas J. Stewart motored to camp from Harrisburg and spent some time in conferring with Major L. V. Rausch, chief of the quartermaster's corps, and Brigadier General Frederick W. Stillwell.

During his visit to camp it was announced that a change has been made in the original orders with respect to the return here on recruiting service of the three Pennsylvania brigade major surgeons. Major George S. Crampton of the First Brigade, has been assigned as surgeon of the Third Infantry, vice Major Luberg, resigned, and will remain at El Paso; Major James F. Edwards, of the Second Brigade, has been assigned as director of field hospitals there, and only Major A. B. Gloninger, of the Fourth Brigade, has been ordered home.

Aside from the customary inspection of quarters by Brigadier General Stillwell and the respective regimental commanders, followed later by close order drill and attendance at divine services, there was nothing doing for the Third Brigade headquarters show a total strength of 1,669 officers and men made up as follows: Staff, 6; Thirtenth Infantry, 709; Ninth Infantry, 707; Twelfth separate battalion, 247.

Does a pimply, unattractive skin shut you out from the full enjoyment of the summer's pleasures? Then think of this: To use Resinol Soap means that

ach time you cleanse your face you give it a "beauty treatment" with the soothing, healing Resinol medication. If aided, in severe cases, by a little Resinol Ointment, this usually leaves the complexion naturally clear and fresh. It is equally effective in protecting deli-cate skins from the effects of summer's sun, heat and dust. All druggists sell Resinol Ointment and

FOOT COMFORT MAKES TIRED ACHING FEET HAPPY

Let Miss Shapley Tell How She Got Rid of Them.

"My trouble first began with small pimples which looked like blackheads. Later they became large, and looked awfully blue, and they festered and came to a head and then scaled over, and my entire face became covered. They tortured me dreadfully at night, and they itched and when I would scratch, they burned something terrible. My skin became inflamed, and my face was a sight.

"I had the trouble five months before using cuticura Soap and Ointment. I had only used two cakes of Cuticura Soap and one box of Cuticura Cointment when I was completely healed." (Signed) Miss Mary Shapley, 3436 E. St., Philadelphia, Pa., Feb. 14, 1916.

Miss Shapley might have been spared this distressing skin trouble had she used Cuticura Soap on her face for everyday toilet purposes, touching the first sign of pimples, irritation, redness or roughness with Cuticura Ointment. No more effective emollients exist.

-by keeping your teeth REALLY CLEAN.

"But," you say, "I brush my teeth regularly, yet they decay." Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, examine them closely. You will likely find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.

Decay, as well as the dangerous gum disease called Pyorrhea, usually develops only in the mouth where germ-laden tartar is present. SENRECO, the formula of a dental specialist, keeps the teeth REALLY CLEAN. It embodies specially prepared soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.
