IS YOUR FLOAT READY FOR REGATTA?

Companies and organizations are expected to enter the lists in time to get a place in the big line that will help make Harrisburg's river demonstration Labor Day, September 4, the biggest spectacle of the kind ever held in the municipality's history.

Now Then Everybody In that brief was the gist of the report submitted last evening at the navy meeting by W. C. Lutz, a member of the committee on floats and commercial co-operation.

Mr. Lutz earnestly urged all the business firms to get in touch with the committee. He himself can be reached at the offices of the Harrisburg Light and Power Company.

"In urging business folks to go in," said Mr. Lutz, "tell them that arrangements can be made about their flats by communicating with us. The cost of the craft will be very small. I think arrangements can be assured whereby only the actual cost of maintenance will be charged. Now then, everybody get busy, whether you are on the committee or not—urge the merchants and businesshouses to come in. That is what will help make the float end of the carnival a real success."

Some of the entries To date these entries have been received: Dives, Pomeroy and Stewart, Bowman and Company, William Strouse, Globe (Benjamin Strouse), Harrisburg Light and Power Company, Charles M. Stieff, J. H. Group, George W. Bokar, Majestic Theater.

The report of the decorated float committee was only one of half a dozen submitted last evening at a big gathering of canoeists, motorboatmen, and others interested in the development of the Susquehanna "basin."

The Permanent Development In putting the recommendation to a vote of the rivermen, President E. J. Stackpole pointed out the wonderful possibilities of the river in the future.

Municipal bathhouses, bathing beaches, the lighting and permanent improvement of the islands, the marking of boat channels—these are a few of the problems that Harrisburg must solve in the very near future and the purpose of the "navy" as an organization is to boost this movement.

In the Years to Come On the permanent development committee will be the members of the park advisory board, the city planning commission, the city engineer, the park architectural expert, the superintendent and assistant superintendent of parks and such other representatives of the "navy" whose knowledge of the river and river conditions will be of invaluable assistance.

The committees will be appointed within a few days. No recommendation for a permanent name for the annual regatta or river demonstration was submitted as the committee wishes further suggestions.

Mr. Kelker is chairman and can be addressed care of the Park Department, Calder building.

Will Adopt Cap and Insignia Mr. Kelker was appointed chairman of a committee to uniform cap. He will select his own committee. The little white duck navy service cap with a brim that can be turned up or down and which lends so effective an appearance to Uncle Sam's sailors will likely be selected.

Some of the rivermen have been wearing the cap for years. They cost little and give a distinctive touch to the wearer's appearance, as one of the advocates of this headgear pointed out.

"Wouldn't the river look pretty nice," he asked, "with a lot of boatmen—say a thousand or more canoeists, motorboatmen and so on, girls and boys—padding or chugging

And every one was equally full of "pep." The "Greater Harrisburg Navy" "Greater Harrisburg Navy" was definitely decided as the official name of the great body of canoeists, motorboatmen and other river enthusiasts of Harrisburg and other towns along the Susquehanna whose boating folk will have access to the river. Municipal Club, Susquehanna boating association and Capital City boat club were other names suggested.

about with every passenger wearing the "navy" cap?" The Membership Campaign In order to facilitate the handling of the membership campaign, a committee on ways and means to act as a central body was appointed at the suggestion of Chairman A. R. Michener. This committee will consist of C. W. Wolfe, Clarence Shank, W. C. Lutz, Ralph Seiders and Frank Roth. July 1 was fixed as the annual date for payment of dues hereafter and the membership fee was reduced from \$1 to fifty cents. The membership campaign will be definitely organized in a few days when the committee mails each canoeist whose name is available a return postcard requesting him to enlist.

None So Deaf As Those Who Will Not Hear "Not one word, if you please—not one word will I listen to against coffee!" That is the attitude of many good people, even after they have reason to suspect that coffee hurts them. True, some persons seem able for a time to use coffee without apparent harm, but sooner or later it does interfere with the health and comfort of many users. For a sure, easy test suppose you leave off coffee and use POSTUM This famous food-drink is made of whole wheat, roasted with a bit of wholesome molasses. It has a flavor much like that of the higher grades of mild Java coffee, but is absolutely free from the drug, caffeine, in coffee, or any other harmful substance—free from all coffee troubles. Postum is delicious and comes in two forms. The original Postum Cereal must be boiled. Instant Postum is a soluble powder — made in the cup by adding hot water. The flavor is the same and the cost about equal. Both kinds are good for young and old, and satisfy the craving for a hot, aromatic, mealtime beverage. "There's a Reason" For POSTUM
