New York, July 26.—United States
Steel was the center of interest at the opening to-day, the "extra" 1 per cent. dividend coming as a surprise to the short interest. Steel's initial offering consisted of 15,000 shares at 87, a maximum gain of a point. Other shares of the same class rose a point or better, with similar advances in munitions, motors and equipments and almost two for Industrial Alcohol. Reactions of fractions or more followed the selling for profits. There were large transactions in the new French notes at a slight concession.

New York, July 26.— Failure of the market to respond to the steel statement and extra dividend was a distinct disappointment. Steel, which made up over one-third of the first hour's business, surrendered all its advance before noon and other leaders, including Reading and Union Pacific Reading.
