## "Keep Your Eye on the Clock"

July Closing Hours: Daily 5.30 P. M. Fridays Noon Saturdays 10 P. M.

### Shop by Telephone-

During these days of handicapped transportation facilities, shop by telephone—call 229. An experienced salesperson will shop for you and will serve you intelligently and with every courtesy as though you were here in person.

### Our Second **Annual Picnic**

The Second Annual Picnic and Outing of THE GLOBE employes and their families will be held at Hershey Friday afternoon, July 28.

# Almost Half-Way

Today the Clock Says 488

-just a "stone's throw" from the half-way mark in our great One Thousand Suit Campaign.

All of which demonstrates that it takes more than an impaired street car service to prevent the economy-loving buyers from attending this greatest of all Harrisburg clothing sales.

The response to date has been without precedent. THE GLOBE'S Guarantee of Satisfaction goes with every suit just the same as if sold at its original price.

## Today We Talk Blue Serges---

heatproof Blue Serges of standard dyes—made as light in weight as durability will permit—products of the best clothes makers of the country-all reduced in our One Thousand Suit

churches in the Harrisburg district will

churches in the Harrisburg district will attend the funeral.

Information furnished by Charles Cohill, who found the body of Bishop Eveland, showed that the steel fishing rod used by Bishop Eveland and borrowed from Dr. James Henry Morgan, president of Dickinson College, Carlisle, had come in contact with a hightension electric wire stretched under a bridge and carrying 20,000 volts. The bridge crosses Mud run, which empties into Yellow Breeches creek.

The body was found lying in high weeds back of the stream's bank. Signs of a convulsion showed on the face and indicated an extreme shock. The bishop's hands were badly burned. At the side of the dead body was the steel fishing rod.

Coroner Deardorf decided that an inquest was unnecessary and said the extraordinary form of electrocution was the cause of death. Shortly after the finding of the body the party of searchers who had gone some distance up stream returned and assisted in taking the body to the Mullin home.

Bishop Eveland was born in Harrisburg in 1864 and was the son of John C. Eveland and Mary MacAleer. He was in business in Philadelphia until 1888, when he became converted. He then studied for the ministry at Dickinson College, Carlisle, and graduated four years later with valedictory and Phi Beta Kappa honors. In sequence he preached at Shippensburg, Danville, York, Chambersburg and Bloomsburg. For two years Bishop Eveland was director of Tome Institute, at Port Deposit, Md., and for

seven years president of Dickinso eminary, at Williamsport.

He was elected missionary bishor four years ago and was assigned to Southern Asia, with headquarters at Manila, Philippines Islands. The principal fields of his late labor were in India, the Straits Settlements, Singapore and the Philippines.

### Came to United States Recently

Bishop Eveland came to this country several months ago to attend the Methodist General Conference at Sara-toga and had decided to summer at

Methodist General Conference at Saratoga and had decided to summer at Mount Holly Springs pending his departure for the East in November. He is survived by his wife, who was Miss Rosalie Mullin, of Mount Holly. The deceased was a member of the Phi Kappa Psi fraternity and the Ancient Belles Lettres Literary Society.

While at Dickinson College Bishop Eveland was active in football circles and was a member of one of the strongest teams that ever represented Dickinson College. He also devoted some attention to baseball. Methodist workers from the Far East have brought back word that the deceased divine was one of the leading figures in the modern campaign for the spread of Christianity in the East. Last Sunday Bishop Eveland assisted the Rev. Joseph H. Price at the Carlisle Methodist Church.

He was graduated at Dickinson in the same class with Virgil Prettyman, head of the Horacc Mann School, New York city; Headmaster William A. Hutchinson, of Conway Hall; District Superintendent A. S. Kasick, of Carlisle of the Methodist Church, and a number of figures prominent in the Methodist Church.

SHOES TO BE LOWER

High Tops Going Out, Price Going Up, Chicago Hears

Special to the Telegraph

Chicago, Ill., July 26.—Styles of shoes, especially for women, will be of the "common stock variety instead of the excessive high top kind" next season, according to statements of manufacturers made to-day at the convention of the Illinois Shoe Dealers Association. The colors will be dull grays and champagne, due to the shortage of dyestuffs.

The prediction was made that there would be an increase of from 20 to 40 per cent. in the price of shoes the coming winter on account of the war in Europe, which has shu to fit the supply of dyestuffs and imported leather. "Unless the world develops a substitute for leather within two years, America will be the next wooden shoe nation." said some speakers, who declared that the country is in the throes of a leather famine.

STEEL'S GREAT RECORD

Prosperity indeed has returned with a rush to the steel industry. There never has been a time in the history of steel when such wonders have been worked as in the first half of the current calendar year, and fortunately all signs point to a further period of great earnings that will enable not only the United States Steel Corporation, but smaller concerns as well, to lay up a surplus which will carry them through days of depression without the necessity of passing dividends or borrowing money for the proper upkeep of their plants or for working capital. Early last year the United States Steel Corporation had to go into its surplus account to pay its preferred stock dividend. In less than a year it was earning at the rate of 20 per cent, on its common, which it returned to the dividend column, while in a little more than a year it was earning at the rate of more than 38 per cent, and made to its common stockholders a distribution of 1 per cent, in addition to the regular quarterly rate.

## COMPENSATION PRECEDENTS SET

Important Matters Being Considered Today by the State Workmen's Board

Over twenty debeen made by the State Workmen's Compensation Board in the last month and it is expected that a number of others will shortly be issued on appeals on important points in awards of referees. The business of the board is rapidly being reduced to a system under the awards been made by the

reduced to a system under the awards and decisions and it is expected that coming decisions will go far toward meeting some of the objections raised against the act and which it is said will be laid before the next Legis-

will be laid before the next Legislature.

The board is in session here to-day and the difference between a major and a minor operation will be considered and a ruling made within a few days. The agricultural ruling is expected to be followed by a test case, the board deciding to stand by the general definition of agriculture in the supplemental act of 1915.

In a majority of cases the board has upheld the referees, but in several instances they have been reversed, while a number of entirely new hearings have been granted. The number of cases coming up is larger than was expected, probably due to industrial activity and the desire to have precedents established.

To Sue Polluters.—A series of important actions and the desire to have precedents.

the desire to have precedents established.

To Sue Polluters.—A series of important stream inspections with a view to checking pollution from industrial plants which are just now running at high rate of productior is being made by wardens of the State Fisheries Department in the Juniat, Clarion, Schuylkill and Susquehanna valleys. The inspections are the second to be made, it being the idea to establish the pollution and then bring the matter to the attention of the Attorney General if a change is not made.

Seven New Cases.—Seven new cases of infantile paralysis were reported to the State Department of Health last night. Four came from Philadelphia.

New Hotel Company. — Philadelphia people have chartered the Wernersville Hotel Company, which will establish a hotel at the health resort in Berks county. It has \$100,000 capital.

Third Person's Status. — In an opin-

in Berks county. It has \$100,000 capital.

Third Person's Status. — In an opinion issued last night Chairman Harry A. Mackey, of the Compensation Board, settles the question of the status of a third person in an accident He says in part: "Every State has legislated in its own way upon this subject. Each State is governed by its own subrogation revision. It is perfectly evident that our Legislature intended to create for the injured employe a new right of action for compensation against his employer in accordance with an adopted schedule and at the same time to preserve for him his old common law action against a third party. It case of a recovery because of an injury to an employe where the right of subrogation has been exercised by the employer it is his duty after having deducted the total amount of compensation which he has already paid, to turn the balance over to the employe and treat that balance as advance payments on account of compensation. If these continuing payments in the aggregate would amount to a surf less than this amount thus turned over the balance belongs to the employe."

Held Under Advisement.—State Highway Commissioner Black held a hear-

Held Under Advisement.—State High-Held Under Advisement.—State Highway Commissioner Black held a hearing in the case of John J. Dunn, of Pottsville, who was convicted in the Schuylkill county courts of manslaughter for having caused the death of a 7-year-old boy in St. Nicholas. The boy was run over by an automobile operated by Dunn. As a motion for a newtrial in this case is pending and will be argued at the September term of court in Schuylkill county, State Highway Commissioner Black decided that he would not revoke Dunn's motorcycle license until after this motion had been settled and took the case under

## IF YOU WORRY, READ THIS

Worry never brought any good to anybody. But, you say, "Idon't worry because I want to, I worry because I have so much to worry about."

We all have our troubles and worry, of course, makes matters worse. The patient generally recognizes this fact without being able to profit by it.

The doctor who could meet this nervous condition and cure it would be the most popular medical man alive. But he cannot do it because the form of nervous exhaustion known as neuras-

of nervous exhaustion known as neurasthenia, of which worry is a characteristic symptom, must be cured by the patient himself. That is why you should write today for the book "Diseases of the Nervous System" and read the chapter on "Neurasthenia." So many people have read it and written back, "This hits my case exactly, I am giving the treatment a trial and being benefited," that the Dr. Williams Medicine Co., Schenectady, N. Y. has had a lot of these books printed and will send you a copy free on request.

Dr. Williams' Pink Pills are a non-alcoholic tonic, particularly suited for nervous, neurasthenic people. Your druggist sells them or they will be mailed postspaid on receipt of price, 50 cents per box, aix boxes for \$2.50. of nervous exhaustion known as neuras

ed postpaid on receipt of price per box, six boxes for \$2.50.
