During the past two days more than a thousand horses and mules have been unloaded and put in the corral near our camp, making about 3,000 there.

Inspectors stand at each door and pick out the sick or injured stock. A common disease is shipping fever, which affects the eyes and causes the nostrils to run. These horses must be kept at the corral for three weeks before they are issued to command.

Tells of Villa Country To a friend in this city a Harrisburg officer of the Eighth Regiment, now in Camp Stewart, near El Paso, writes as follows:

We are located about nine miles from El Paso with the entire division of the Pennsylvania troops and about two miles north of Fort Bliss in the sand. We would be quite comfortable if it were not for the sandstorms, but as the rainy season is about to open we will get relief from that source.

I am enclosing some specimens of the Villa currency, which is, of course, at the present time of no money value, and to tell the truth, never has been except in Chihuahua when Villa compelled its acceptance. Mr. Watson, the assistant cashier of the Rio Grande Bank and Trust Company (Villa's banker), informed me the other day that when this money arrived from the lithographer that Villa did not have enough real money to lift the package from the express company, which held the six trunks of money until he had raised enough to pay the charges. The de facto currency is worth now about one cent per peso. Not very good currency.

DORSETT NOW IN CHARGE OF WORK MORE CALVES ARE BEING RAISED NOW Organizing the Farmers of the State to Take Charge of Marketing Plans Interesting Statistics Gathered by the Department of Agriculture on Stock

E. B. Dorsett, well known among State farmers, has been placed in charge of the State's work of arousing interest in the marketing co-operation plans. He has the assistance of the farm counselors, who are teaching the farmer that it is a waste of time, money and energy to produce a crop and then not be able to successfully market it.

After the crop is produced the farmer must know how, when and where to sell. It is a well-known fact that no matter how fertile the soil, how well the land is tilled, how abundant the harvest, it is of but little avail to the farmer if he is unable to market the crops at a profit. Successful marketing is the key to the arch with every farmer.
