DR. SURFACE WILL FIGHT DISMISSAL Says That He Has Aroused Enmity of Many People by His Fearlessness Dr. H. A. Surface, the State Zoologist, who has refused to resign at the request of the State Commission of Agriculture, to-day declared that he was the victim of politics being played on Capitol Hill. He says that Governor Brumbaugh has not yet been heard from and that he has always been his friend. Dr. Surface also says that if he believed that the people of the State wanted him to resign he would do so, but that he is not convinced. The State Commission will meet Monday and it is intimated that if the zoologist does not resign he will be dismissed. He says he will not resign at the request of the commission and is inclined to fight. In his statement Dr. Surface says: "I do not know why I should be asked to resign. My services have been rendered faithfully and effectively and I have been loyal to all superior officers and have worked in harmony with all persons concerned. There are no charges against me, and, of course, none can be brought. The Agricultural Commission evidently believe that the citizens want a change, but the people who constitute the last resort are arising by thousands and saying they want me to remain in this service. I have not heard an expression of the will of the Governor, but he has certainly been friendly. "I am especially qualified by training, taste and experience to do the work of this office in a practical manner, and I am willing to work in close harmony with all persons concerned. I would be glad to receive directions or suggestions from any or all of my superior officers and to labor faithfully with them for the common end of improved agriculture and horticultural conditions in this State. There is great work possible, and I hope to help do it. The results of my labors in the production of better fruits are only commencing to make themselves manifest. "My work in Pennsylvania is not finished, and many persons feel that it should not be interrupted now when I have their confidence, and they are willing to follow my directions and obtain good results. I have investigations and notes for publications under way, for the completion of which proper time should be given, for the sake of the public. "In the fearless prosecution of duties I have been enemies, and I know these have been relentlessly after me. Also, some may say that this action is due to politics, but I trust my friends will not offend my superior officers by a repetition of such unnecessary reference. As I understand it, the plan of the commission is purposely to keep politics out of the department. There is no reason whatever why it should enter into agricultural affairs, and I am certain that the action is only and of those near me in the office have not at any time been dominated by it. "All I ask is a chance to continue in good work for others, and I have faith in all Pennsylvania people, whom I love, to the effect that they will not rest until their desires in this important matter are made known fully. If I should believe that many of my fellow-citizens really want me to resign, I could willingly and quickly do so, but if they want my services continued, as they are now saying by the thousands, in letters to members of the Agricultural Commission, the Secretary of Agriculture and to the Governor and to myself, I shall be glad to remain and serve them just as long as possible. "This letter is a plain, practical statement of the case, as far as I see it and know it. I do not feel any disgrace in connection therewith, with the thousands, in letters to members that I have done no wrong and have used every effort to help render a great service."
