the city, our employes, and the company. We think we should go to

We have made known our position to our men and we want the public to know what it is because it is final. We believe it will benefit

great lengths to uphold it and we are willing to. We have just entered into an agreement with our loyal employes, numbering about sixty-five. We have adjusted all questions with them satisfactorily. We will be glad to receive from the 165 former employes who left our service, applications for positions, providing they apply as individuals, and each application will be received and

treated on its merits. THEY WILL NOT BE RE-EMPLOYED UNDER ANY OTHER CIRCUMSTANCES. We will not recognize or have any dealings with the Amalgamated Association of Street and Electric Railroad Companies.

THIS IS FINAL. We will not discharge those employes who have been loyal to the company. It may be some time before conditions are normal, but the management will do everything it can to accommodate the public.

We only ask that law and order be enforced. The Harrisburg Railways Company is a Harrisburg institution. Its directors are all Harrisburg men. All but one live here. Ninetyfive per cent. of the stock of the Harrisburg Railways Company is owned in Harrisburg. We have no outside entanglements and we are responsible only to Harrisburg people. We intend to maintain

this relationship. We feel we are doing right and acting in the best interest of the city, its people, the company and its employes, when we refuse to have any dealings with any organization entirely controlled by outside parties.

We are making a fight for Harrisburg, and it will be a winning one.
