

HIGH PRICES OF PAPER HIT CITY

Water Department Items Tumbled Over 1916; Bowman Attributes It to Famine

City Council to-day officially got an illuminating tip from the subject of the high cost of paper when the yearly contracts for printing and supplies for the Water Department were awarded to the Loughbaugh Press, the only bidder.

EARLY SAILING OF U-BOAT INDICATED

[Continued From First Page]

about the submarine were towed into midstream and anchored. Then the tug Timmins and a launch swept the channel from the dock out to the main channel with a heavy weight suspended under water from a line between the two craft.

It was learned from a trustworthy source that Captain Koenig had asked for a pilot to guide the underwater liner to the Virginia capes. The pilot designated was said to be the same one that brought the Deutschland into this port.

Sweep Channel For Mines The sweeping operations were thoroughly performed. Besides searching for any ordinary obstructions such as sunken logs, etc., they also were looking to see whether any explosives had been planted.

The United States coast guard cutter Wissahickon arrived from Philadelphia, while these operations were in progress and took up a position off the end of the slip.

Later, the spar barricade was replaced just outside the line of covered barges which screen the Deutschland from view from the river and the Timmins returned to her position alongside the submersible.

May Go Tonight The city police headquarters meanwhile had joined the Wissahickon and in response to a signal both boats steamed to the pier. After a conference between the captains of these two craft and Deutschland officers, the Wissahickon and Lannan steamed away and it became apparent that the Deutschland would not leave immediately.

It is known that the submarine was expected to leave at high tide this forenoon. Owing to the strong adverse winds, however, the flood stage was not as high as required by the Deutschland, necessitating a postponement of the start. The pilot was aboard. The next high tide occurs between 7 and 9 o'clock this evening.

Departure of Deutschland Imminent, Prince Declares

Washington, Aug. 1. — Prince Von Hatzfeldt, counselor of the German Embassy, said to-day after a call at the State Department that he had talked on the long distance telephone with Baltimore and that the departure of the merchant submarine Deutschland was imminent.

Wires That Killed Bishop Must Be Safely Placed

In a report made to the Public Service Commission to-day John P. Dohoney, investigator of accidents of the commission, recommended that the wires of the Cumberland Railways Company be placed above instead of under a bridge near Mt. Holly Springs.

Dear Sir:—On July 25, 1916, the body of the Rev. William Perry Evedand, Bishop of Southern Asia for the Methodist Episcopal Church, was found on the bank of Mountain Creek about one mile north of Mt. Holly Springs, in Cumberland county.

"Survival of the Fittest"

A proprietary medicine like everything else that comes before the public has to prove its merit. It has to meet competition. The law of the "Survival of the Fittest" applies to his as to other things. The fact that Lydia E. Pinkham's Vegetable Compound after forty years of success is still one of the largest sellers proves that it is a dependable, standard remedy for the ailments of womankind, and one in which they may have perfect confidence.—Advertisement.

RUSSIANS THREATEN TO WRECK WHOLE TEUTONIC LINE IN GALICIA

Somme Front Unchanged

The Germans are violently counter attacking in the Somme region of Northern France and according to the official report from Berlin to-day have driven the British out of Fouroux wood, northwest of Longueval.

London reports the situation along the Somme front virtually unchanged since the Anglo-French attack of Sunday. The repulse of a German attack near Bazentin-le-Petit, is claimed. Paris announces the breaking up of two strong attacks by the Germans south of the Somme near Lihons.

Germans Say Tremendous Successes of Russians and British Are Indecisive

Berlin, Monday, July 31, via London, Aug. 1. — Turkish officers are now a familiar sight in the streets of the Gallian capital. The Ottoman forces however apparently have not yet been thrown into the struggle. The German commanders are bidding their time to launch their counter attack.

French Find Time to Add to Their Trenches While Repulsing Counter Drives

Paris, July 31. — The Germans attacking with more than usual vigor north of the Somme, have made counter attack after counter attack during the last 24 hours, without in any way changing the position of the French. According to French official reports all attempts of the Germans to regain lost ground have been beaten off by the French rifle and machine gun and artillery fire while the work of strengthening and adapting the newly won trenches is being carried on speedily and methodically by the engineer corps.

The French commanders regard the situation on the whole as excellent and say that the arrangements in the rear of the attacking forces have reached a pitch of perfection never before seen. Material of all kinds is in abundance, far exceeding, according to reports, the actual requirements and everything is in readiness for an attempt to push the advance further when the time is ripe.

The fury of the German assaults and the strength of the effective engaged shows the determination of the emperor's generals to spare no effort to prevent the French from working their way along the north bank of the river by way of Clerly to attack Peronne from two sides.

Aviators from several directions are feverish efforts to reinforce the already strongly fortified positions about Clerly and are gathering reserves from several directions. Heavy fighting is looked for in the near future.

Desire Independence of Belgium; Union of Balkans

London, Aug. 1. — The complete re-establishment of the independence of Belgium and Poland and a democratic federal union of the Balkan States were points unanimously agreed upon at the opening of the International Socialist Conference at the Hague yesterday, according to a detailed account of the session received here.

Entente Allies Have Lost 49 Warships Since Start of War; Teuton's Loss 30

Berlin, Aug. 1.—By Wire.—Forty-nine warships with an aggregate of 562,000 tons have been lost by the entente allies during the war, according to statistics given out to-day by the German Admiralty. Of this number, 40 were lost by the British and 10 by the French.

Seven Zeppelins With Aeroplanes in Latest Raid Over British Isles

London, Aug. 1. — Last night's raid on the eastern and southeastern counties of England was carried out by seven or more Zeppelins accompanied by aeroplanes, according to reports of observers who sighted the aircraft returning homeward. No details have been received of the number of bombs dropped, the number of persons or casualties caused, if any, but independent accounts say one Zeppelin, caught by searchlights, was heavily fired on by anti-aircraft guns and it is believed that the airship was hit as she appeared to stop, tremble and then dive.

Haze of Dancing Heat Hides Trench Positions

By Associated Press With the British Armies in France, July 31, via London, Aug. 1. — The sun rose like a ball of flame and the heat was even worse to-day than yesterday. Intense heat waves were more stuffy than a stalled train beyond the stations in the New York subway when the August thermometer is in a record breaking mood. The men in the first line, with no dugout and no shade except clouds and snell smoke, were exposed to the full blaze, their steel helmets feeling as hot as skillets off the fire.

MAYOR IN NO HURRY TO STOP JITNEYS

[Continued From First Page] cles to-day to the effect that the strike-breakers are growing discontented with the situation here and are threatening to quit their jobs and return to New York. A current story was that the liveliest kind of a row developed last evening over the "spoils" of a day's collection—that a nickel was the cause of it all.

The trolley officials declared that if there were trouble from time to time, that there were men in the shade of the "outsiders" who are expected to control these temporary employes. "Watered Stock" Charged In local newspapers to-day appeared an advertisement of the State Federation of Labor in which the statement was made that the Federation plans to take up the question of "watered stock" in the traction company when asked as to the meaning of the Federation, said:

"The case has been placed in the hands of our attorneys, Nead and Nead and the firm is preparing the necessary papers with which to go before the Commission. We will ask," said he, "that the company show cause why it should not reduce its fares on some of the lines, in accordance with a fair return on the investment on the physical valuation. In 1914 we figure that the return on some of the companies which had been taken into the traction company was twelve and a half per cent, in others it was only eight per cent. We think that if the company allowed a fair return of say five per cent. on its investment, the difference could be applied to the benefit of the public and the employees—that reduced fares would be possible on some of the lines, say Middletown, Rockville, etc., and more wages could be paid to the employes."

Thorpe Issues Statement Regarding Company Claims

J. J. Thorpe, Amalgamated Association organizer, who is conducting the strike, this morning issued a statement replying to certain claims of the Harrisburg Railways Company. Mr. Thorpe's statement is entitled "A Reply to the Railways Company's

Well, This Is August--

It used to be thought of as "dog-days" with a sort of relaxation, awaiting the cooler days of September. Not so in this day when folks are going right ahead with the buying of needed articles and commodities and, with this store just as keen to give wike-awake interesting service, particularly in the days of our great
