To Keep Your Baby Perfectly Well This Summer

1. Keep the baby cool. 2. Keep him outdoors as much as possible.

3. Give him plenty of boiled water. Consult your doctor

at the first sign of illness. 5. Make his food light.

Don't give him raw cow's milk with its heavy, indigestible curd—and its germs of sum-mer complaint, that kills more babies than any other cause in the world.

Nurse your baby if you can. If you can't, milk itself—

Nestlés Food (A Complete Food—Not a Milk Modifier)

Nestlé's is safe-free from dangers of raw cew's milk.

In Nestlé's you get milk from healthy cows, purified—free from germs—the calfneeds are modified, the baby needs are added. Re-duced to powder—it comes to you in an air-night can. No hand has touched it—no germ can reach it. It is a complete food—so you add only water and boil one minute and you know that you are giving your baby the food his little body needs.

Don't shock your baby's stomach by changing him from your breast milk to raw cow's milk. In Nestlé's he will feel no change.

Send the coupon for a FREE Trial Package of 12 feedings and a book about babies by specialists.

NESTLÉS FOOD COMPANY, 206 Woolworth Bldg., New York Please send me FREE your book and trial package.
