OF INTEREST TO THE WOMEN

Of course the most alluring road in the world to all young people is the road to pleasure. I always think of it as like one of those beautiful smooth broad white pikes that they have down in Kentucky that run between flower-be decked green meadows, and through gay little towns. You go bowling mer-rily over it without a thought or care, and then—plunk—you run right into

"I saw Radj Rulu force your wife to give this to him," explained the girl, "and later saw him silp it into the pocket of one your maids!" She turned her head, and called to a stocky figure in the hall. It was the plain clothes detective, who had been en-rusted with the investigation of the Wallace robbery. "We have two prisoners for you, officer." said Carson, pleasantly, drac-ging Radj Rulu's servant from his place of concealment in the closet. Twenty minutes later. Mrs. Wallace in the apartment of Mary and Mona deposited the bundle of bank notes on the girls' library table. "My husband and I agree that this is the least we can do for you!" single automobile ride and a shore dinner and a bottle or two of cham-pagne. I know that for many life is dull and monotonous, all work and no play, and that this seems particu-larly hard in the summer time when you see more fortunate girls in gay sport suits, starting off for long vaca-tions that will be full of tennis and boating and dancing and the pleasures that every girl craves. It's in moods like this when you feel that fate hasn't given you a square deal that girls do silly and rash things, such as picking up the acquaintance of good looking chaps who invite them to go to the beaches with them, or to beer gar-dens or dance halls. There's a toligate on that road, too. Don't forget that. Chance acquaint ances are just as dangerous in August as they are in December, and the pleasure that you have to buy at the cost of your self respect comes too high. It's forth it. It's jolly to throw conventions to the winds in the summer. It appeals to a girl's sense of daring to wear au-dacious bathing suits that startle the beholder, and to sprawl around the beach in undignified attitudes, and to permit familiarities from men that she blushes when she remembers it later on.
